# ABOUT FUNWHOLE

'FUNWHOLE' is a combination of the words "fun" and "whole", meaning "the whole fun of both day and night".

Founded in 2014, based on the desire to fully express the whole beauty of bricks (in day and night), FUNWHOLE is the world's first lighting bricks manufacturer.

FUNWHOLE is dedicated to the lighting bricks product, with a combination of bricks and lights. FUNWHOLE was birthed out of lights and bricks, allowing lights shine through your bricks and bring your night bricks to life.

As the pioneer to bring the first lighting bricks, FUNWHOLE was created to bring back brightness to the night world, making day and night whole with the lighting fun.

Engaged in building a creative brand, brick by brick, light by light, FUNWHOLE strives to bring fun and joy to millions of people.

FUNWHOLE creates more than bricks but also let the lights shine through bricks, hoping every building brick lover can enjoy the beauty of lighting!

# INSPIRATION

Every family needs two "homes," one for working and living and another for recreation. You can ski in winter, go fishing, BBQ, and canoe in summer, and enjoy picturesque views all year. Nowhere is better than here for carefree vacation.

The open bedroom and attic spaces are upstairs, while the living room, recreation area, and master bedroom are downstairs. Walking through the window, you may come to the attic, where a telescope is located. You may watch the stars at night if the weather is fine or lie on the terrace to look up at the starlit sky. With sunlight from the round window, the mixed light and shadow create a leisurely rhythm. The central fireplace in the living room keeps warming the house, and the phonograph beside it plays classical music. You could also sit in front of the piano and compose a new melody. Outside the house is a shed full of grapes and a bonfire for grilling fish. The sunset gilds the ground at dusk, making everything picturesque and pleasant.

We hope this vacation home will become your second "home" and will remind you to get out and enjoy nature to the fullest and embrace the beauty of it all.

# TROUBLESHOOTING

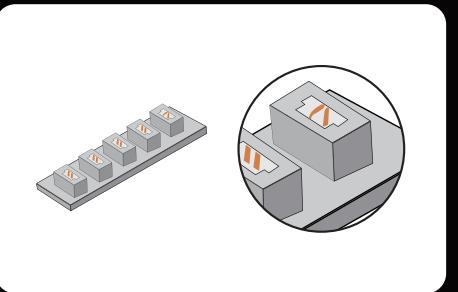

The small size of lighting accessories makes them susceptible to damage during installation, and the following issues are common causes of failure.

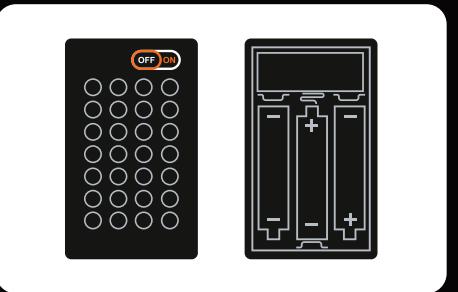

1. Ensure that the connectors are correctly installed as shown in the picture.

2. Check if the wires are disconnected or broken from the solder joints.

3. Check the internal pins of the connector sockets. The internal pins of a properly working connector port should be straight. If the small pins are bent, they may be considered faulty ports.

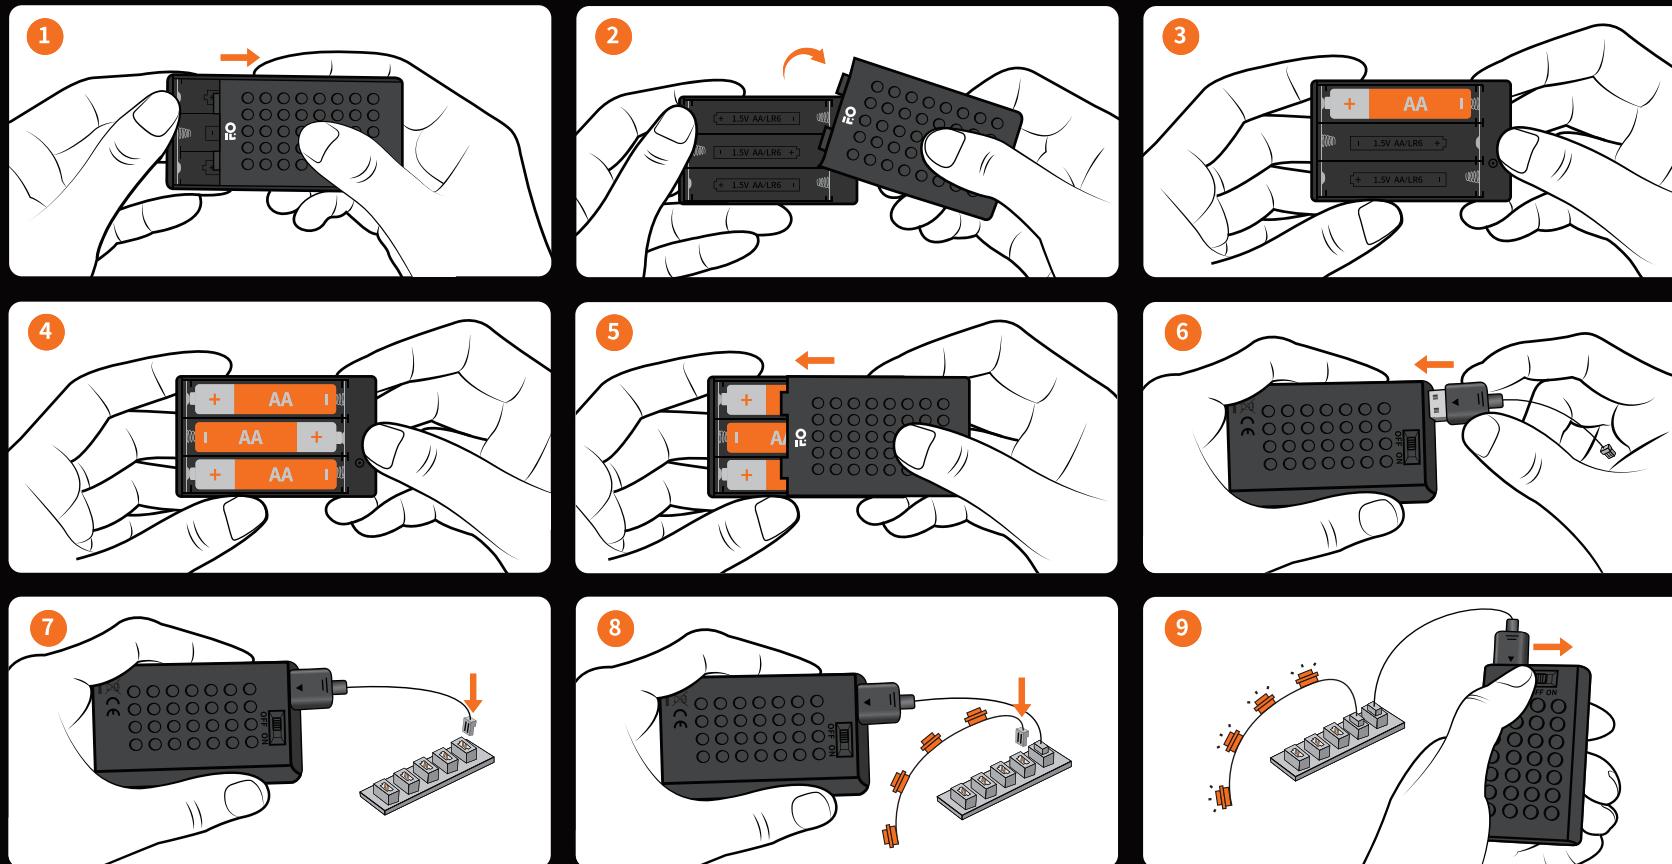

4. Check that the power switch on the battery box is on and that the "+" and "-" poles of the battery are correctly placed (using new batteries) and ensure that the upper and lower connections to the "+" and "-" poles of the power switch are installed correctly.

If you have checked each string of lights according to the guide above and the lights still do not light up, please contact our customer service for assistance.

# SAFETY PRECAUTIONS

1. Before use, please make sure to check the voltage to avoid damage to the product and potential safety hazards.
2. The lights in the product are not replaceable. If they are damaged or not lighting up, please refer to the troubleshooting section or contact our customer service for assistance.
3. Avoid pulling on the light connection wires as this may cause damage.
4. Do not expose the product to water as it may damage the product.
5. If the plug does not fit easily into the port connector, reverse the direction and insert it again, rather than forcing it in, to avoid damage and short circuits.
6. Please read and follow the instructions carefully during building to ensure a good building experience.
