# ABOUT FUNWHOLE

'FUNWHOLE' is a combination of the words "fun" and "whole", meaning "the whole fun of both day and night".

Founded in 2014, based on the desire to fully express the whole beauty of bricks (in day and night), FUNWHOLE is the world's first lighting bricks manufacturer.

FUNWHOLE is dedicated to the lighting bricks product, with a combination of bricks and lights. FUNWHOLE was birthed out of lights and bricks, allowing lights shine through your bricks and bring your night bricks to life.

As the pioneer to bring the first lighting bricks, FUNWHOLE was created to bring back brightness to the night world, making day and night whole with the lighting fun.

Engaged in building a creative brand, brick by brick, light by light, FUNWHOLE strives to bring fun and joy to millions of people.

FUNWHOLE creates more than bricks but also makes the lights shine through bricks, hoping every building brick lover can enjoy the beauty of lighting!

# INSPIRATION

"Traditional izakaya meets dazzling neon lights, as futuristic technology ignites a stunning clash in the heart of the city.

Step past the izakaya, and the mysterious allure of the back alley beckons, drawing you closer. In the interplay of light and shadow, a story of good and evil quietly unfolds..."

**【A Fusion of Eastern Elegance and Cyberpunk Edge】**

The design blends traditional Japanese architecture with cyberpunk aesthetics: classic tiled roofs, sliding paper doors, lanterns, and storefronts adorned with neon lights and metallic textures. The izakaya, ramen shop, and takoyaki stand form a layout that transports you to a surreal, otherworldly street.

**【8 Quick Release Areas, Endless Playable Details】**

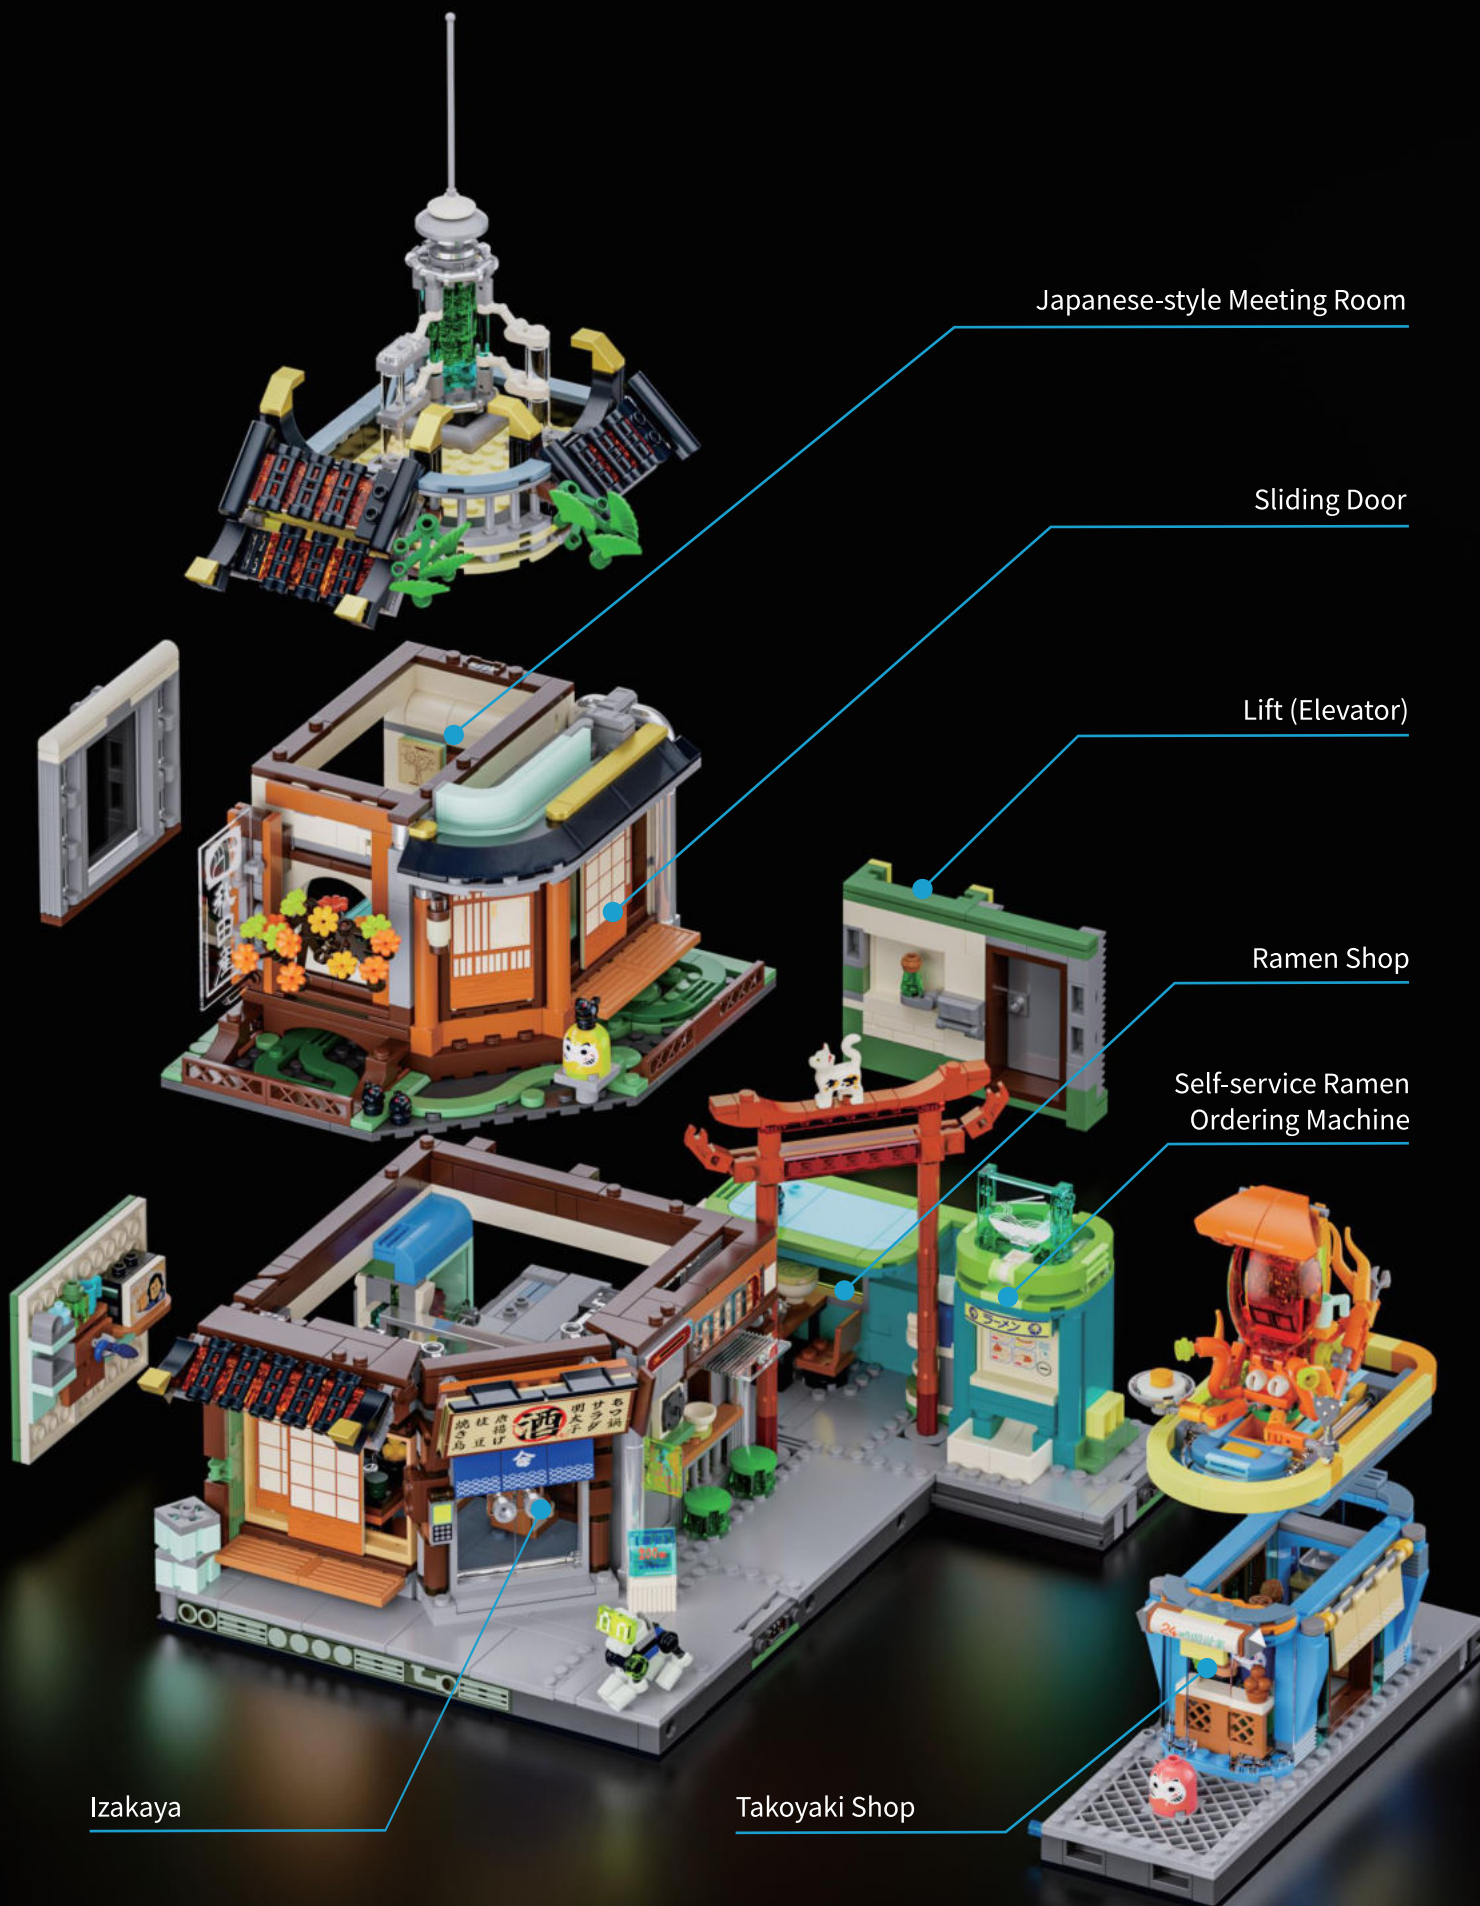

**Izakaya:** A two-story structure with two removable floors, three detachable walls, and two sliding doors. Explore every corner of the dining area and upstairs room. An elevator leads to a private meeting room where the table reveals hidden compartments containing secret files and a pizza.

**Ramen Shop:** A removable roof and an interactive ramen vending machine for hands-on fun.

**Takoyaki Stand:** Detachable from its base, featuring standalone lighting, with the roof and iconic giant octopus removable together to allow access to the interior details.

Every detail invites you to touch, explore, and create.

Takoyaki Shop

A detailed LEGO Ninjaboys set featuring a multi-level building with a green roof, a yellow lantern, and various minifigures. Callout boxes provide background for Sophie Keller, Shunji Miyamoto, and Ethan Carter. The set is built on a dark base with a textured surface.

### Shunji Miyamoto:

Once a swordsman known as "Iron Blade," now a humble izakaya owner and sushi master. The scar by his eye and the stubble on his face tell the story of a forgotten legend. His salmon filleting skills are unmatched.

### Sophie Keller:

Outwardly a smiling service robot, but in reality, a cold-blooded bounty hunter. Her sharp eyes gleam with a red light, masking her desire for rebel leaders' heads, which fetch a fortune on the black market.

### Ethan Carter:

A key figure in the resistance, his face concealed beneath a hood and cloak, radiating strength and unwavering resolve. He is determined to overthrow oppression and lead his people to a new world of freedom.

#### Daishō Sasaki:

The boss of the streets, hot-blooded but a bit naïve. Just now, he taught the "Giant Goose Gang" a lesson, and now he's in the mood to drink and celebrate.

#### Isabella Crane:

The most mysterious black-market dealer in a neon-lit world of steel and chrome. A fish tank on her head is her signature, with bubbles rising that seem to whisper endless secrets and greed. She always smiles and says, "Freedom comes at a price."

#### Changfeng Li:

Shabby clothes and a liquor-soaked nose, he was once a legend, now a drunkard. His self-taught drunken boxing is like a dragon soaring in the sky, and his glazed eyes hide past glory and present decline.

The image is a vibrant LEGO Technic diorama set against a dark background, suggesting a nighttime urban environment. The main structure is a complex assembly of colorful bricks (red, yellow, green, blue) forming a futuristic building. A large, translucent orange piece at the top resembles a giant goose head, which is part of the 'Giant Goose Gang' mentioned in the text. To the left, a minifigure of Daishō Sasaki stands near a sign that reads '【激安】 200円 会員費無料'. Another minifigure, Isabella Crane, is positioned near a circular platform. A third minifigure, Changfeng Li, is shown in a separate callout box. The scene is illuminated by various colored lights, creating a neon-lit atmosphere. A small sign on the building indicates '24時間営業' (24-hour operation). In the foreground, a small stand holds a red fox mask and a blue robot-like figure. The overall composition is intricate and detailed, capturing the essence of a cyberpunk-inspired Japanese street.

#### Daishō Sasaki:

The boss of the streets, hot-blooded but a bit naïve. Just now, he taught the "Giant Goose Gang" a lesson, and now he's in the mood to drink and celebrate.

A LEGO minifigure of Daishō Sasaki, wearing a black suit and having a determined expression.

# WHAT'S INCLUDED

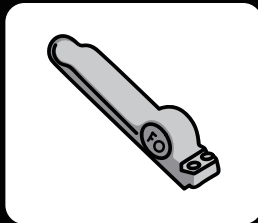

Please check and make sure you get all the items listed below.

Building Bricks

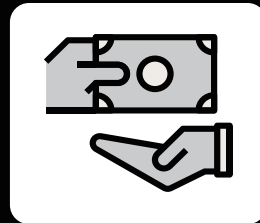

LED Light Kit

Brick Separator

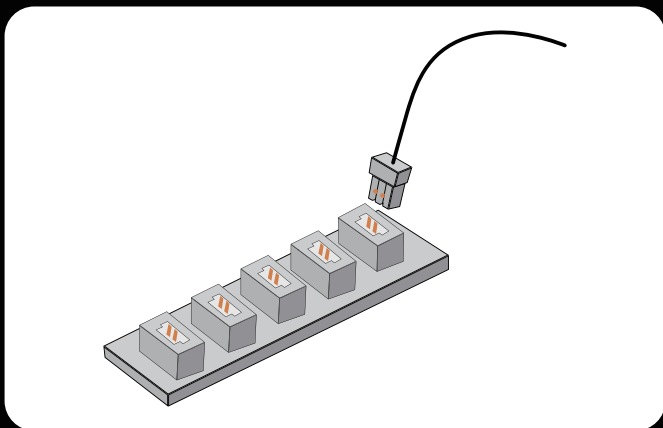

User Manual

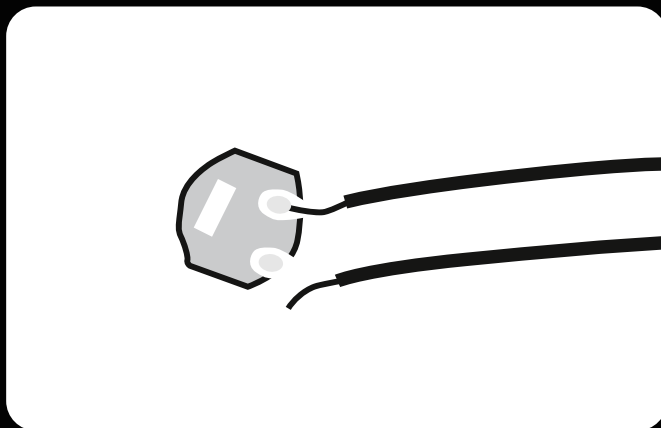

Service Card

# TROUBLESHOOTING

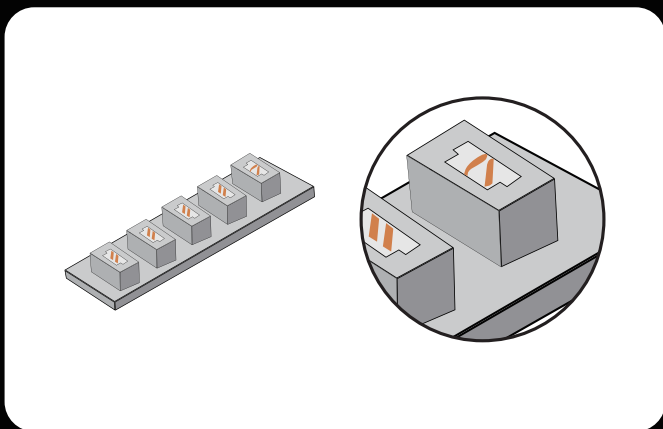

The small size of lighting accessories makes them susceptible to damage during installation, and the following issues are common causes of failure.

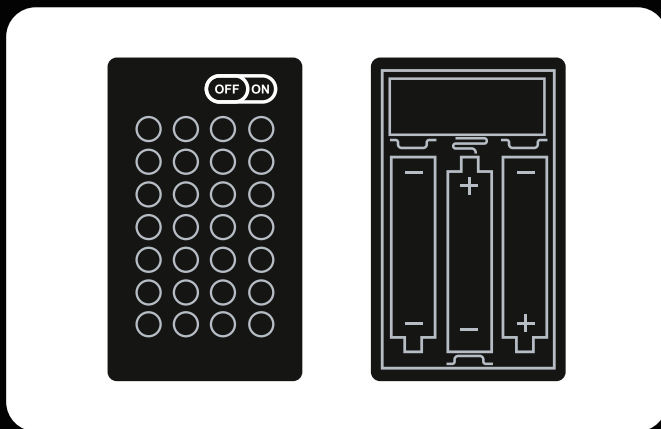

1.Ensure that the connectors are correctly installed as shown in the picture.

2.Check if the wires are disconnected or broken from the solder joints.

3.Check the internal pins of the connector sockets. The internal pins of a properly working connector port should be straight. If the small pins are bent, they may be considered faulty ports.

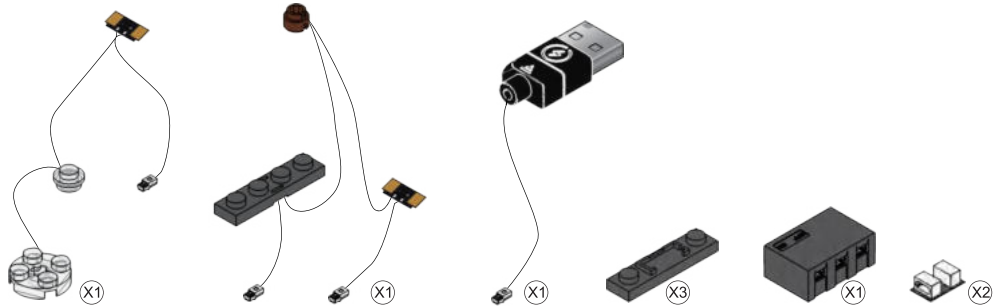

4.Check that the power switch on the battery box is on and that the "+" and "-" poles of the battery are correctly placed (using new batteries) and ensure that the upper and lower connections to the "+" and "-" poles of the power switch are installed correctly.

If you have checked each string of lights according to the guide above and the lights still do not light up, please contact our customer service for assistance.

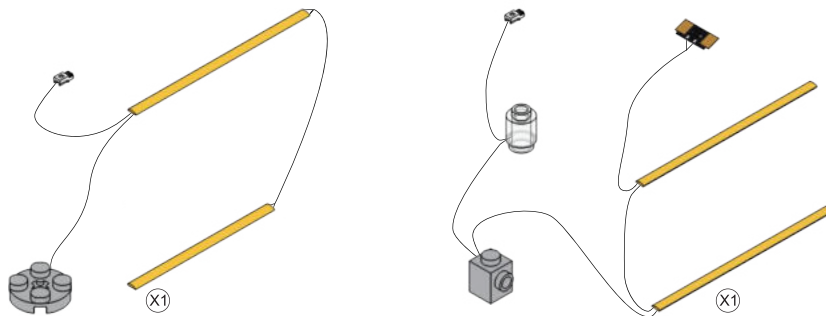

# LED LIGHT KIT PACKAGE LIST

Please check and make sure you get all the lighting accessories. Contact us if there are any missing components.

**Note:** when installing, don't pull it hard, bend it or shake it to avoid damage. The supply voltage should be below 5V, and the button battery holder voltage can be below 6V. Not for children under eight.

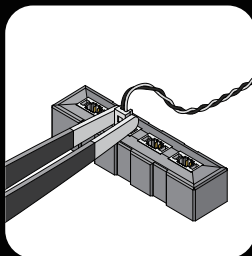

# HOW TO UNPLUG THE CONNECTOR

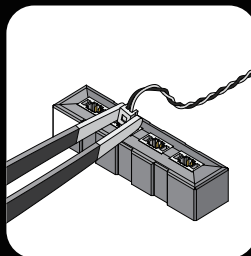

Note that the new connector will be tight. To remove it, gently shake it from side to side until it loosens, then pull it out.

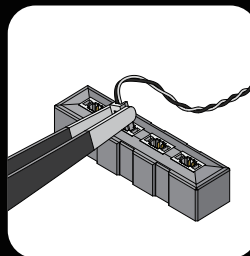

1.The connector is installed, as shown in the picture.

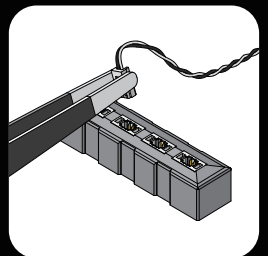

2.Use tweezers to hold the connector on both sides.

3.Gently shake the connector from side to side.

4.When the connector is tight, it will take several shakes to loosen it.

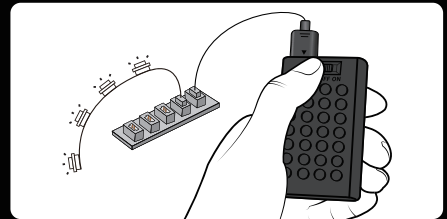

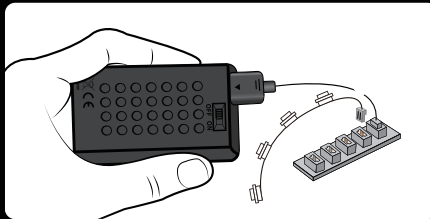

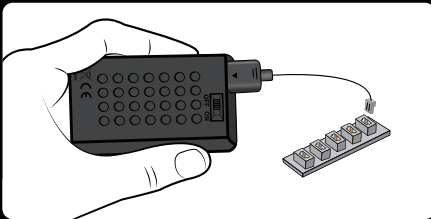

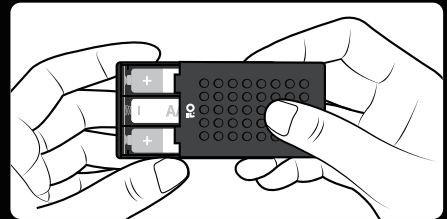

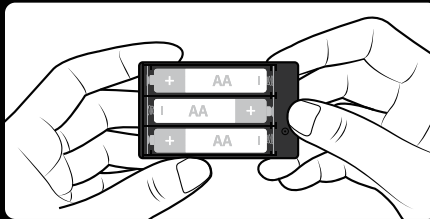

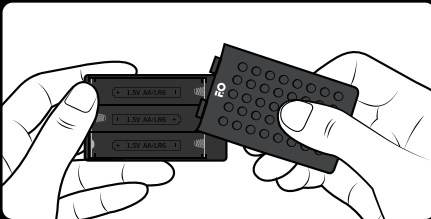

5.Remove the connector.

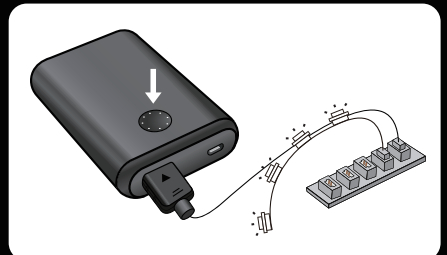

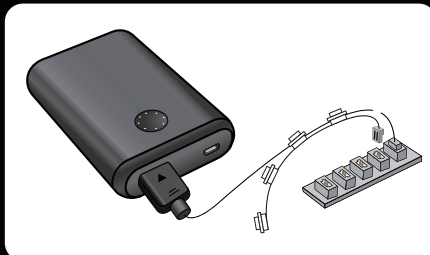

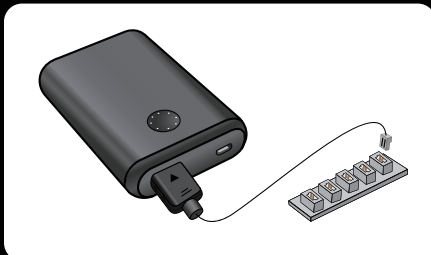

# SAFETY PRECAUTIONS

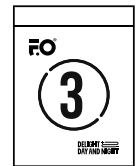

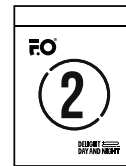

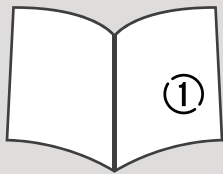

1. Before use, please make sure to check the voltage to avoid damage to the product and potential safety hazards.
2. The lights in the product are not replaceable. If they are damaged or not lighting up, please refer to the troubleshooting section or contact our customer service for assistance.
3. Avoid pulling on the light connection wires as this may cause damage.
4. Do not expose the product to water as it may damage the product.
5. Please read and follow the instructions carefully during building to ensure a good building experience.
6. This product doesn't include batteries or power banks. Please prepare your own batteries or power banks to power the LED light kits.
7. While there are several models available, the operating procedures and mechanism for FO expansion boards and battery boxes remain consistent. For inquiries, we encourage you to reach out to our customer service team for assistance.
8. Certain products are accompanied by a Type-C cable designed exclusively for use with the respective product. The USB end of the cable connects to a 5V DC power source, while the Type-C end connects to the Type-C expansion board. Please disconnect the input power when not in use for an extended period.
9. Do not simultaneously use multiple power sources to supply power to the LED light kits.

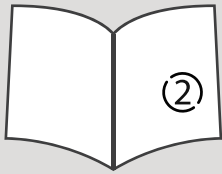

Battery box name: No. 5 building block battery box    Battery type: AA\*3 (No. 5)

Battery rated voltage: 1.5V

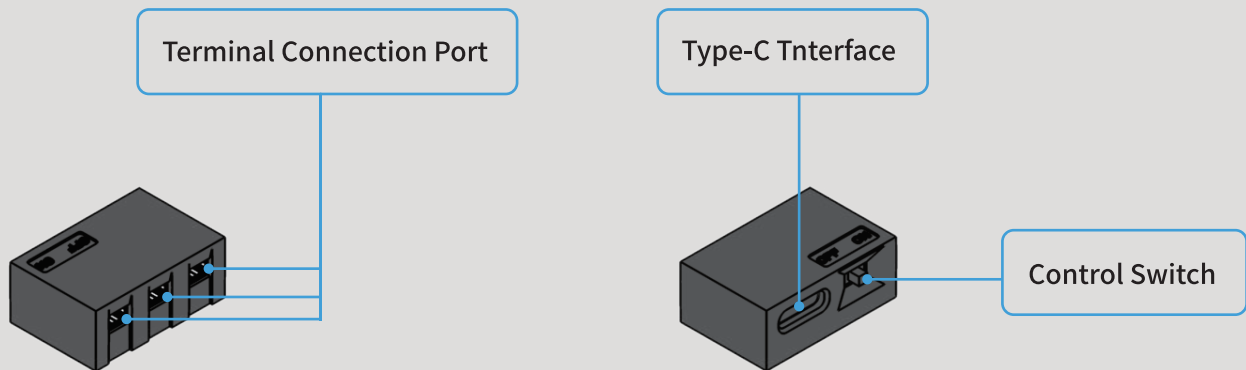

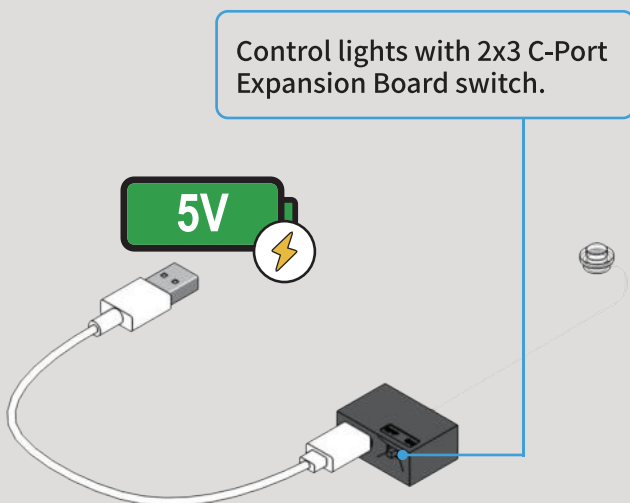

# 2X3 C-PORT EXPANSION BOARD

We've launched a new lighting accessory called the "2x3 C-Port Expansion Board". In addition to the standard functions of an expansion board, the added Type-C interface and control switch make power supply more convenient, just like charging a mobile phone.

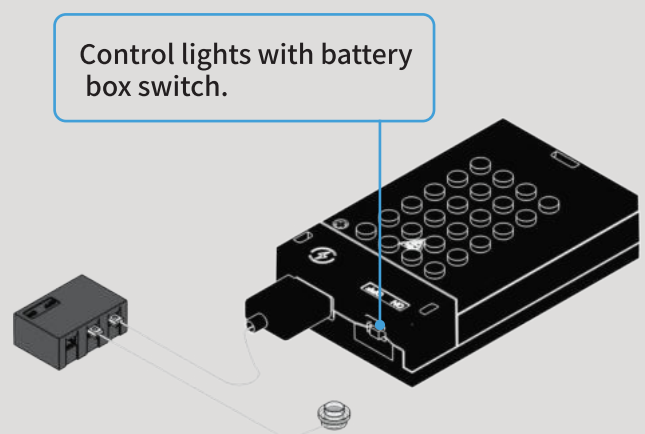

The 2x3 C-Port Expansion Board supports two power supply methods, both capable of illuminating the lights. You can choose one according to your needs.

## Method 1

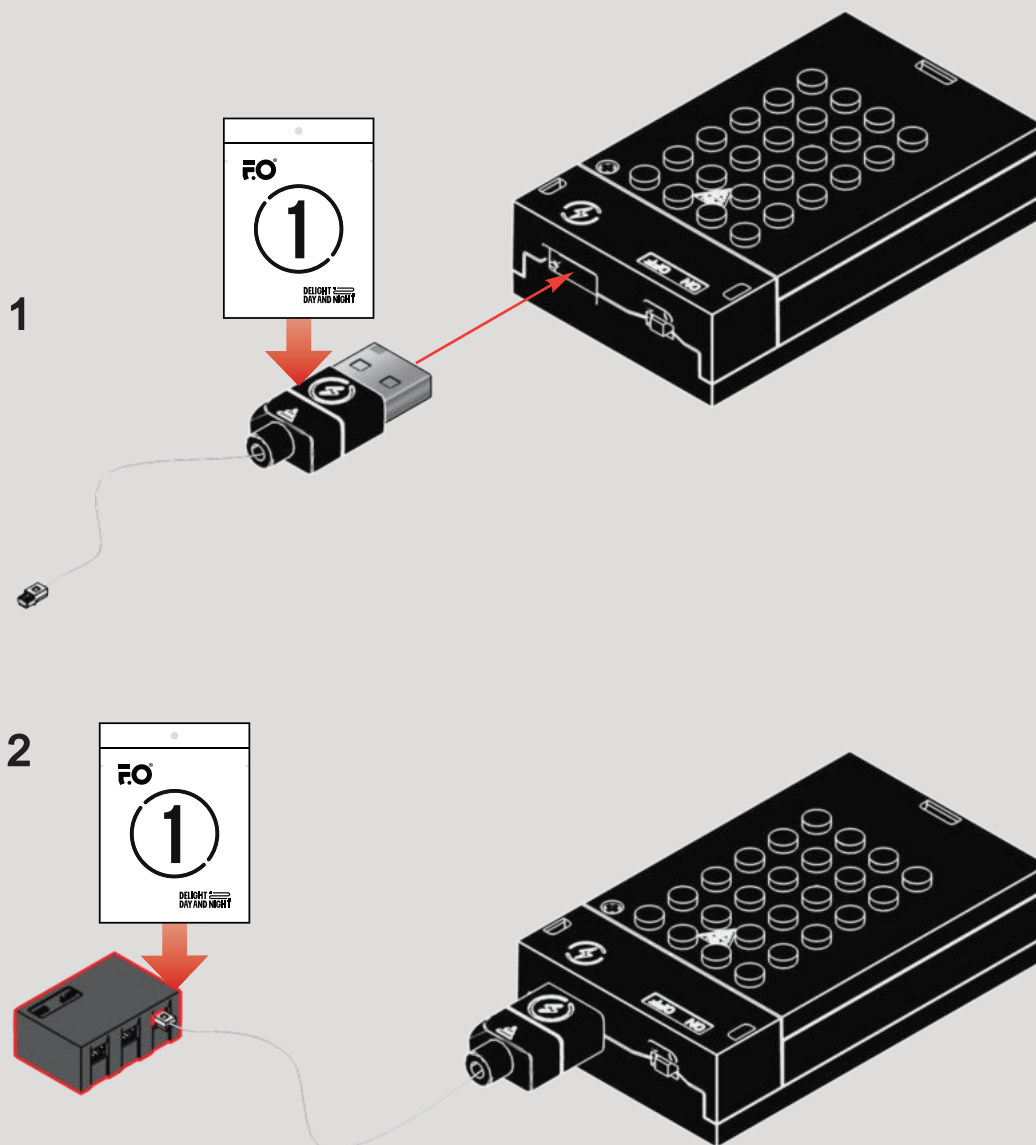

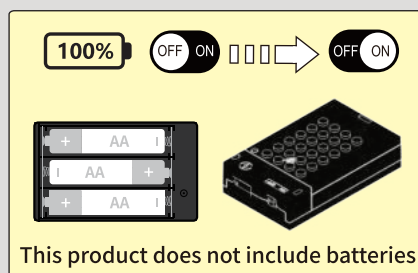

## Method 2

\*In the assembly guide, Method 1 will be primarily used. but you can also choose Method 2 without affecting other steps.

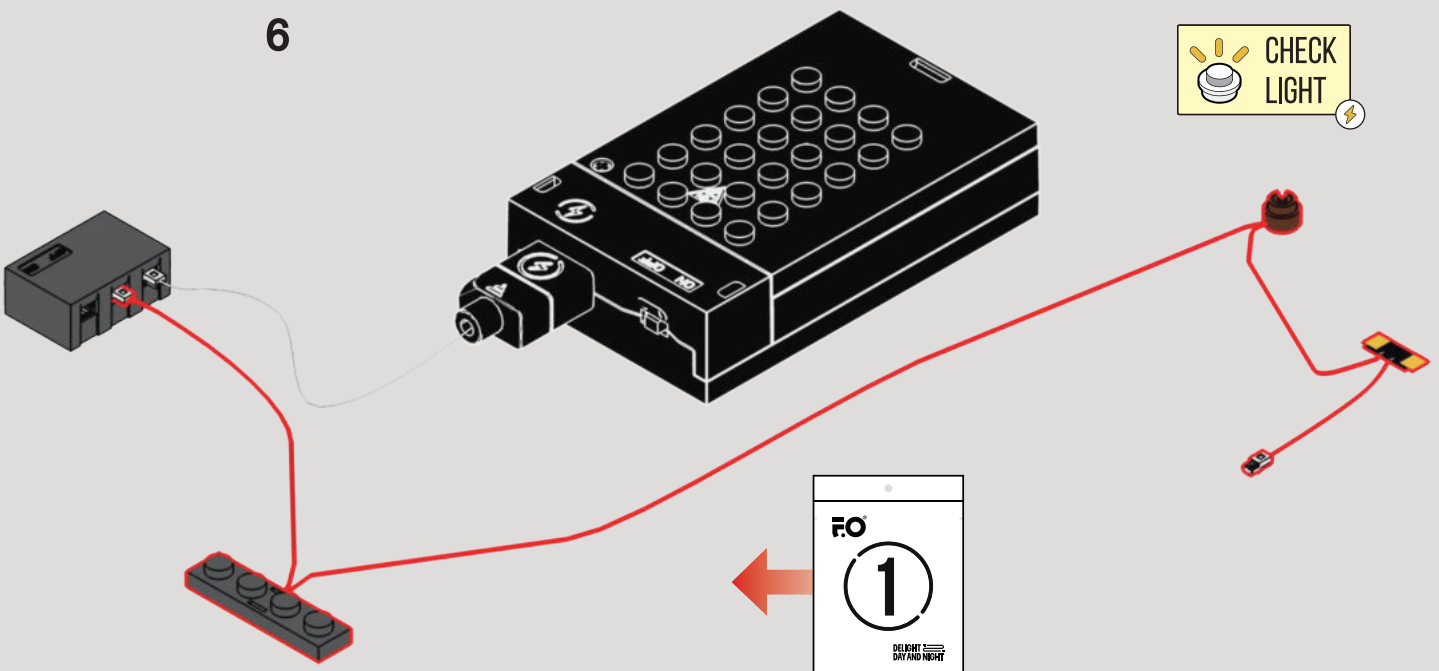

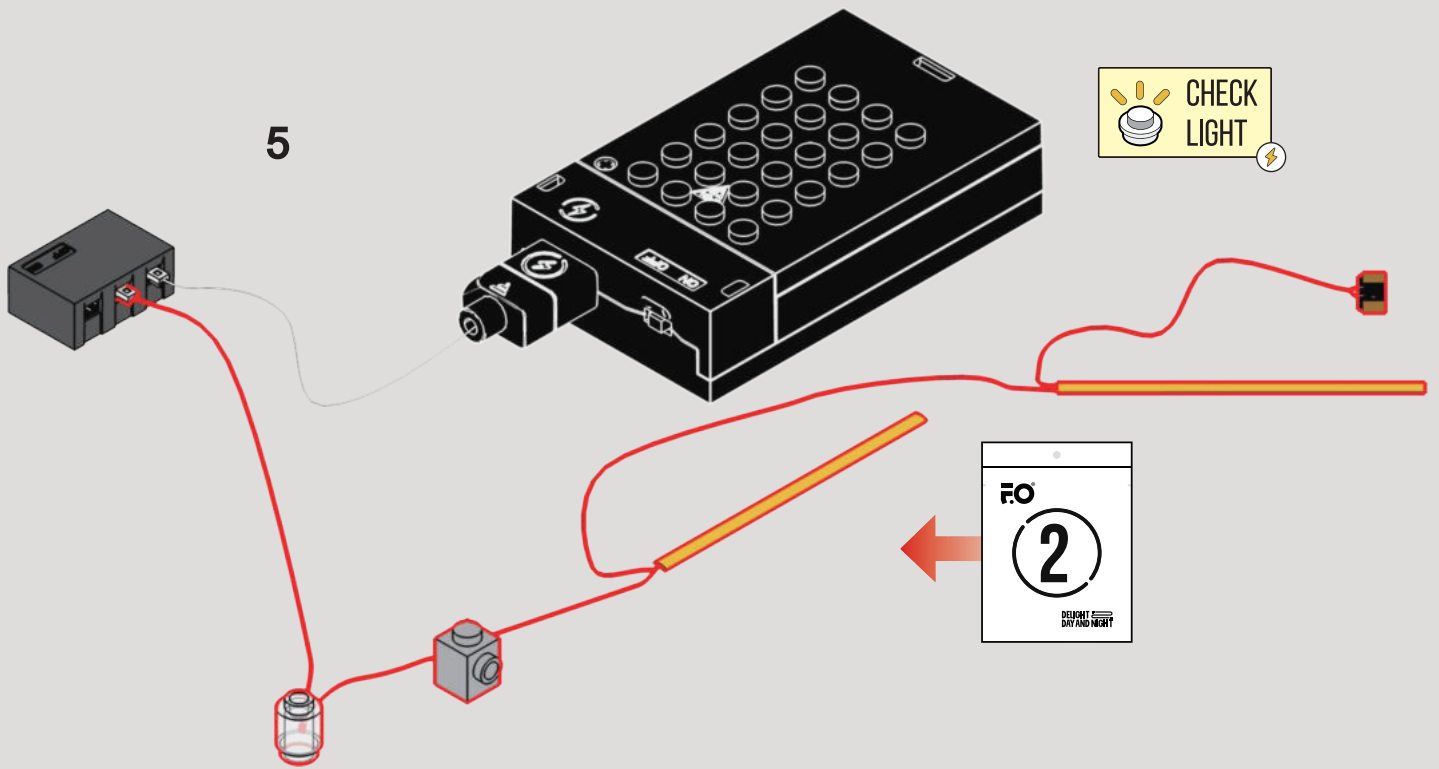

# LED LIGHT KITS INSPECTION GUIDE

- 1.To enhance your experience,please check the LED Light Kits according to the guide before starting assembly.
- 2.After inspection,please return the LED Light Kits to their original bags for future use.
- 3.If any issues occur,please contact customer service.

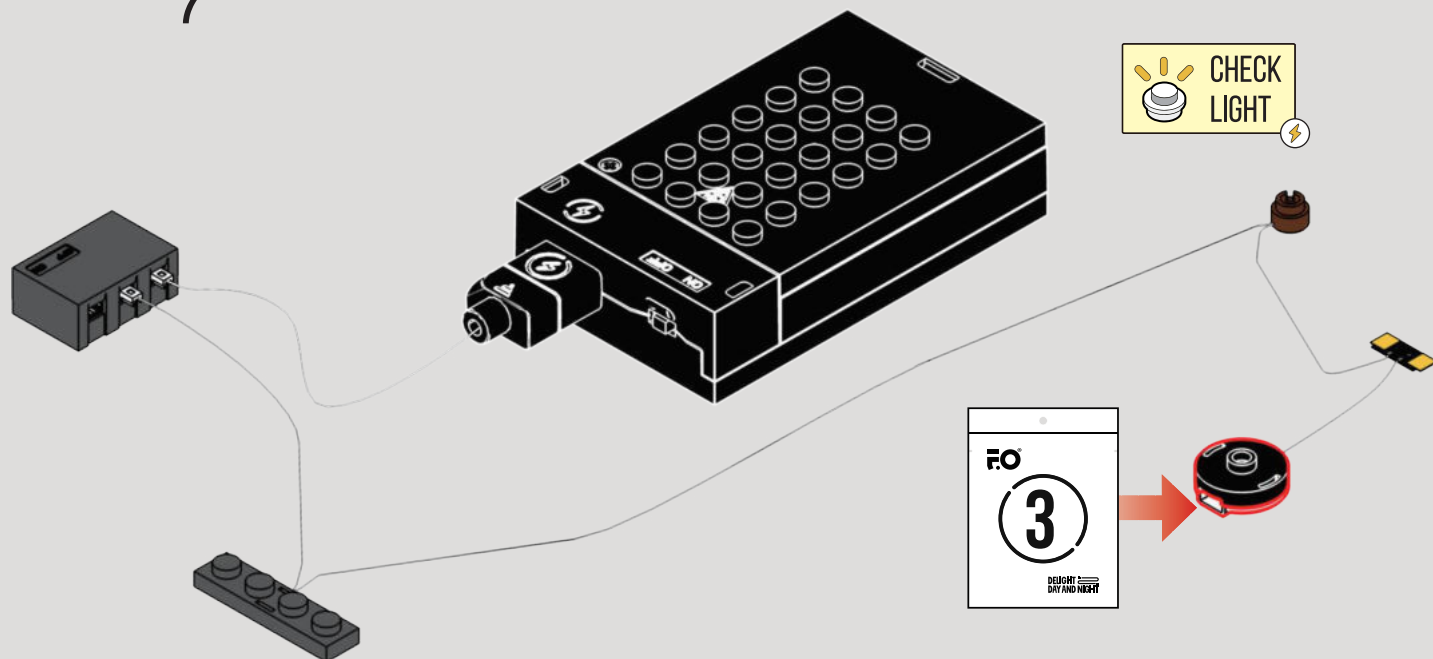

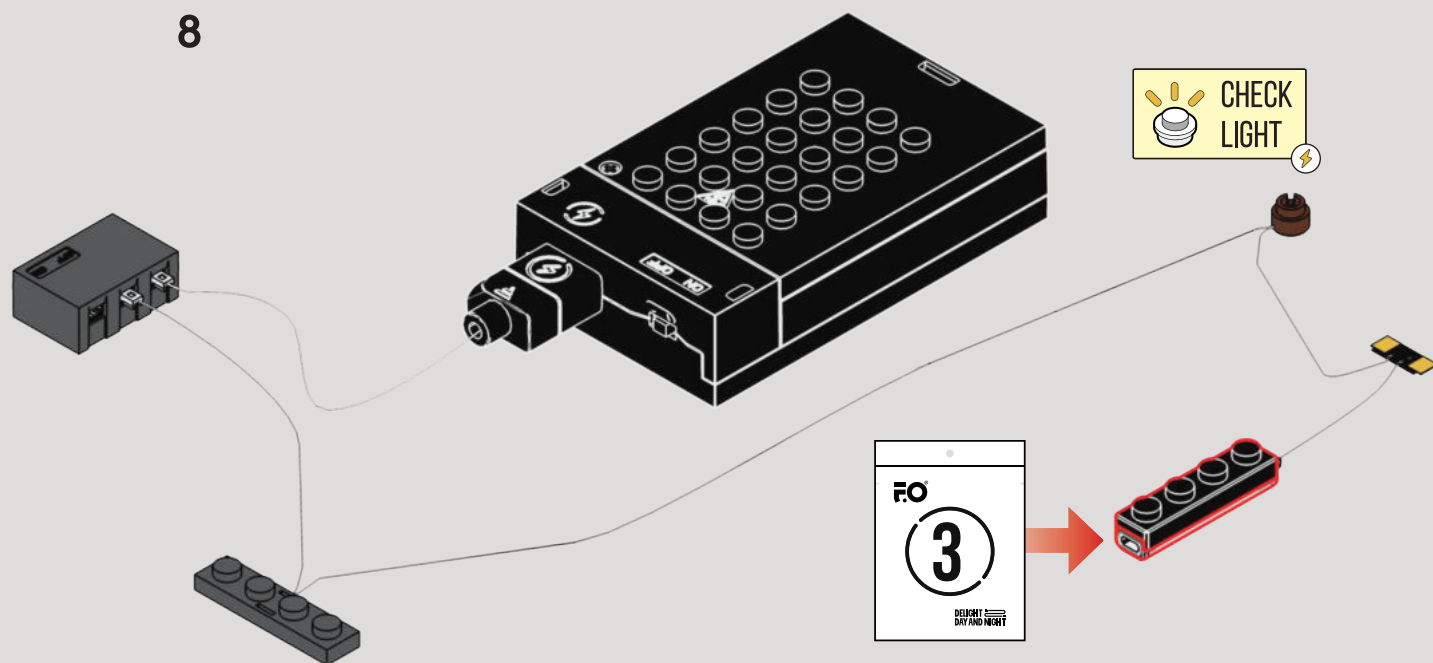

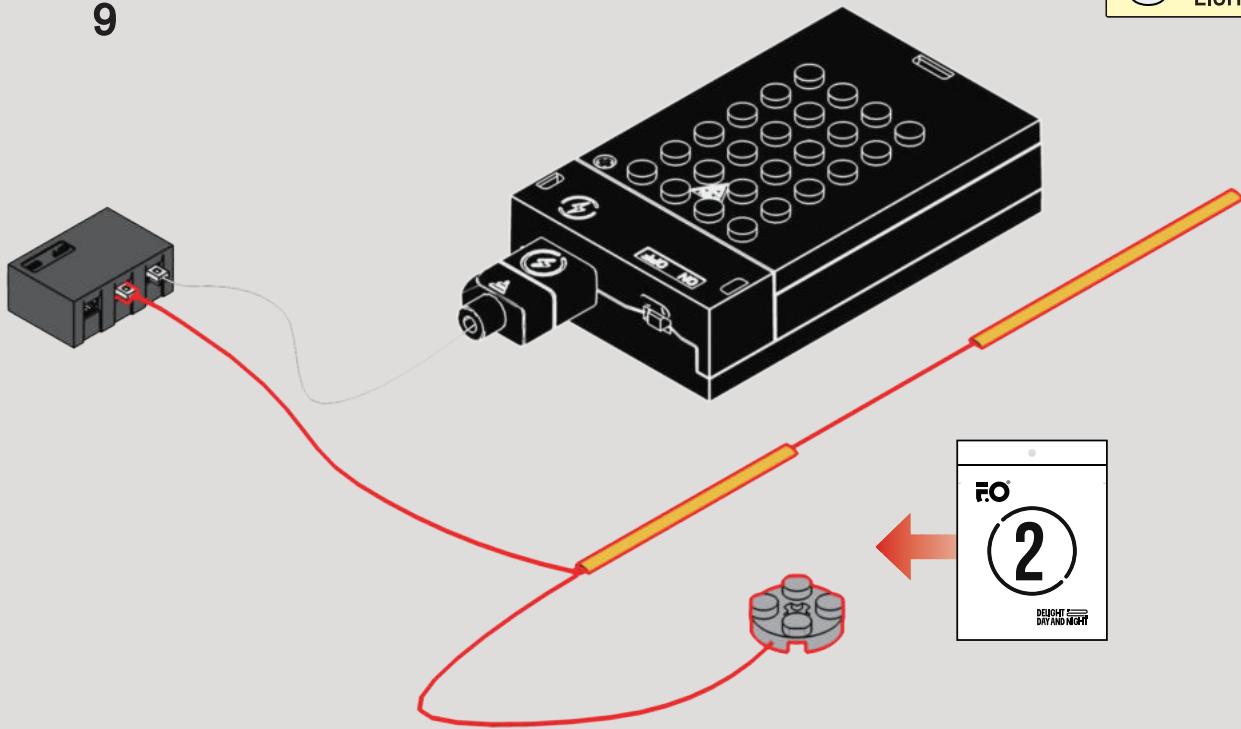

7

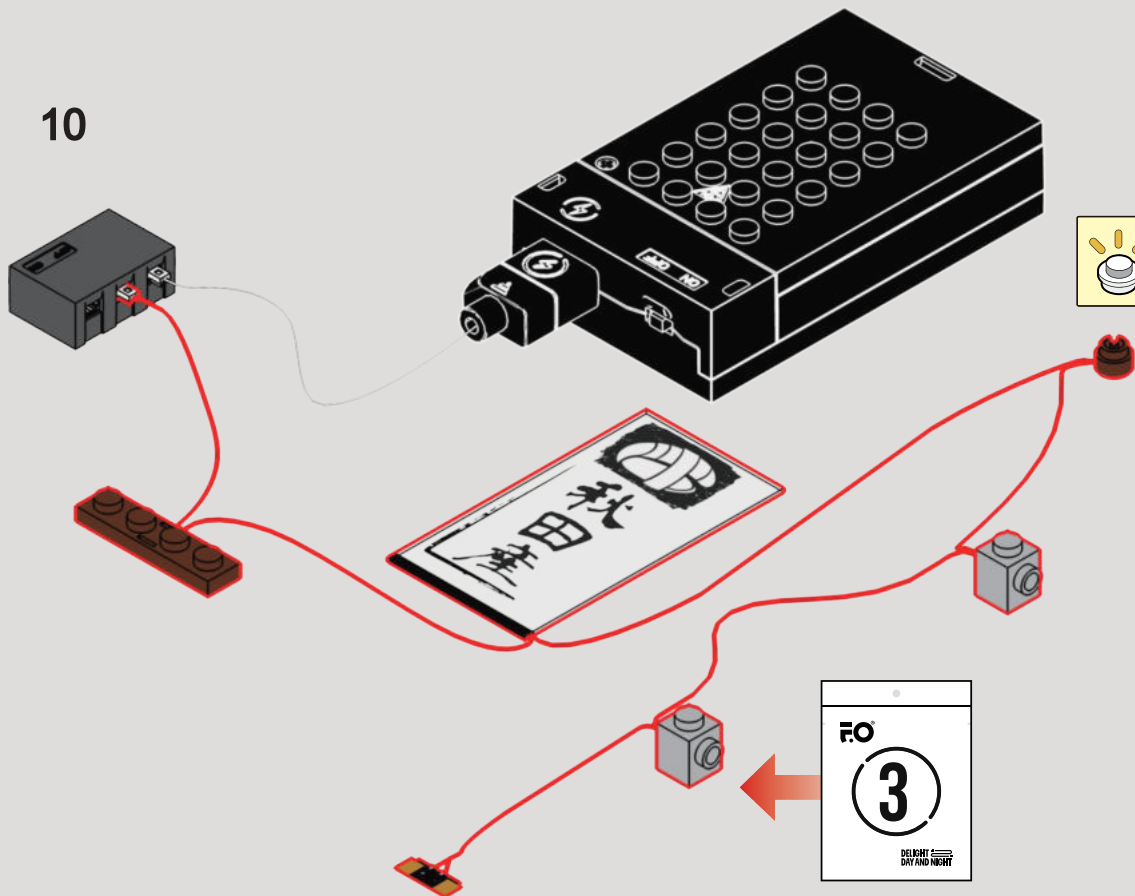

8

9

10

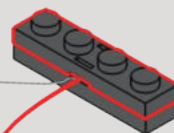

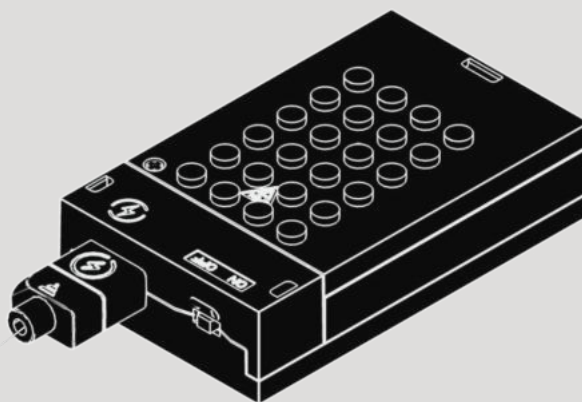

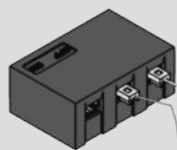

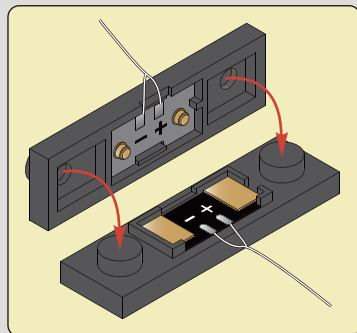

The diagram illustrates the connection of the DELIGHT 2 system. A cable connects a power source (labeled '4') to a control unit (labeled '1'). A 'TEAR OFF' label indicates where to remove the protective film from the control unit.

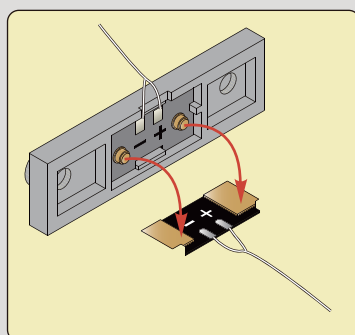

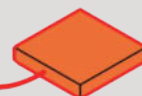

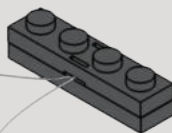

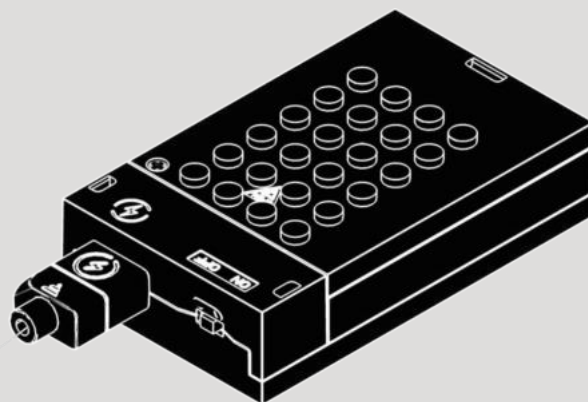

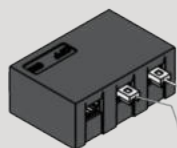

12

Diagram 12 illustrates the connection of the power supply to the module. A red wire connects the positive terminal of the power supply to the positive terminal of the module. A black wire connects the negative terminal of the power supply to the negative terminal of the module.

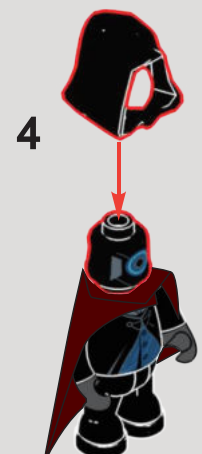

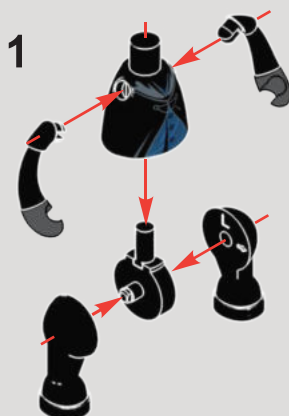

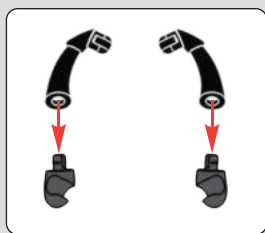

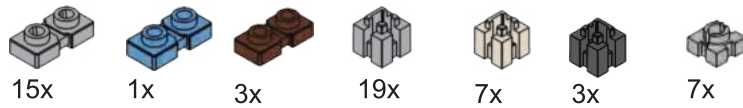

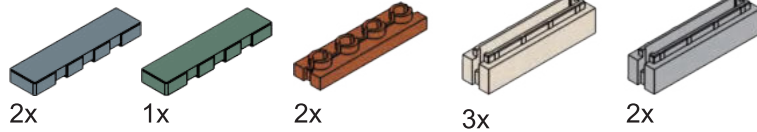

13

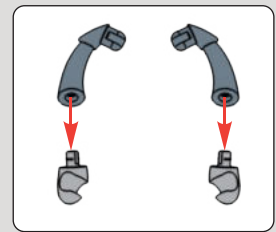

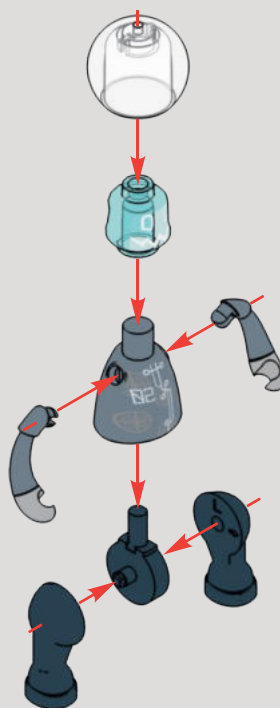

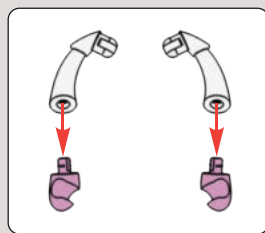

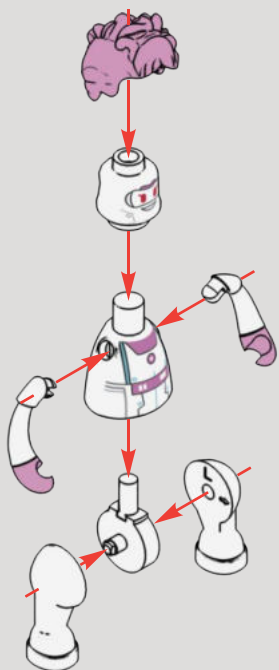

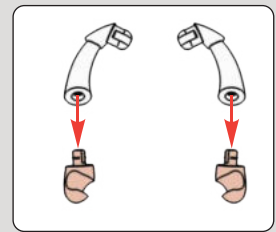

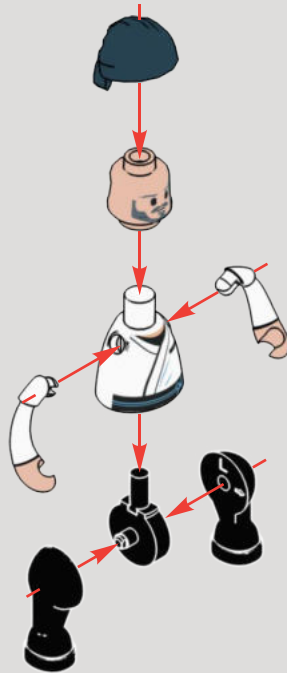

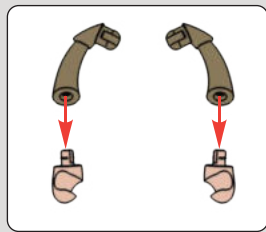

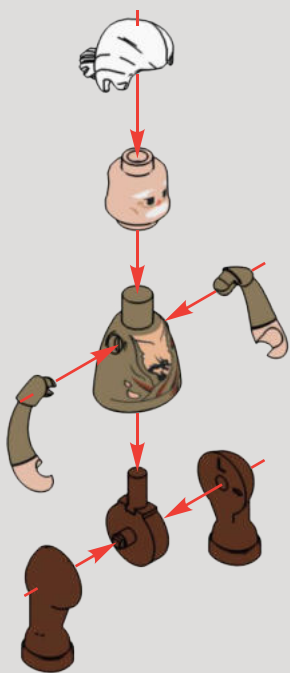

14

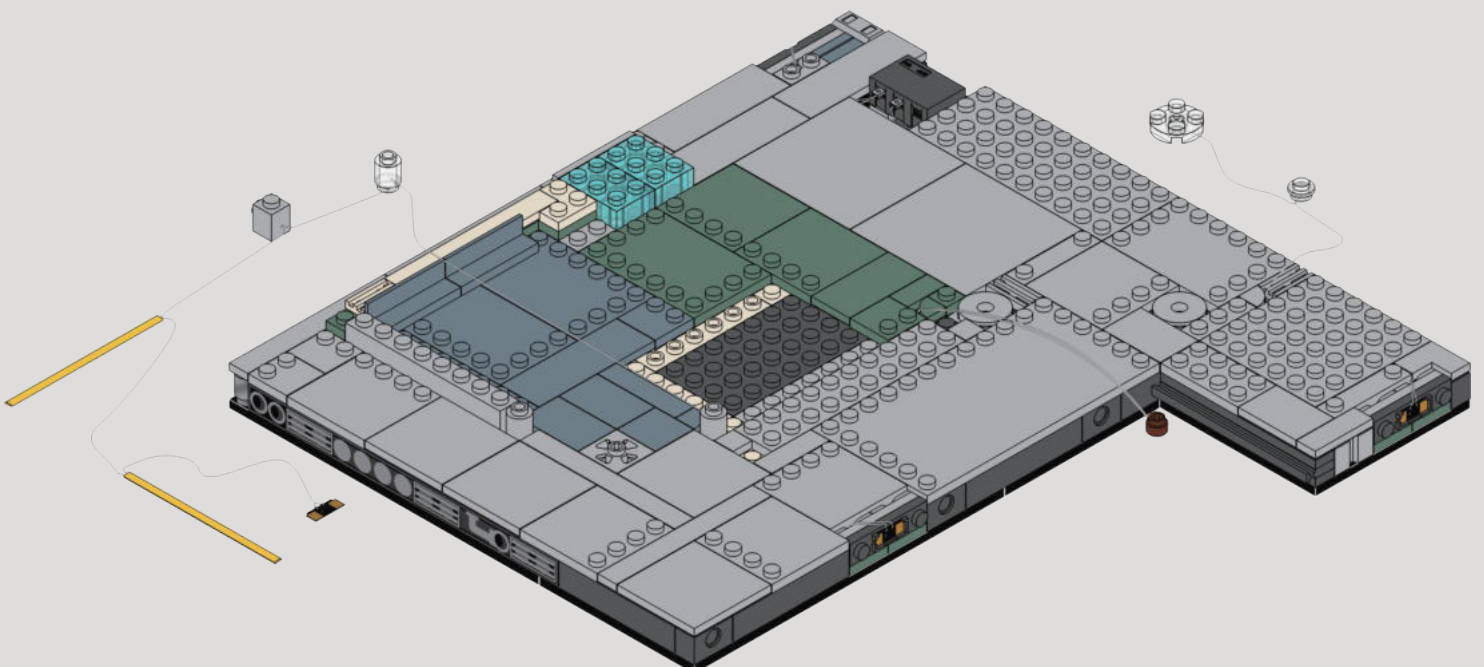

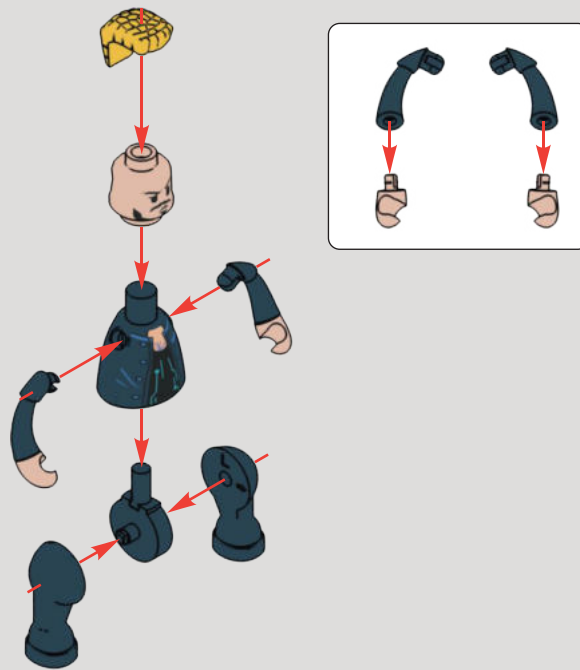

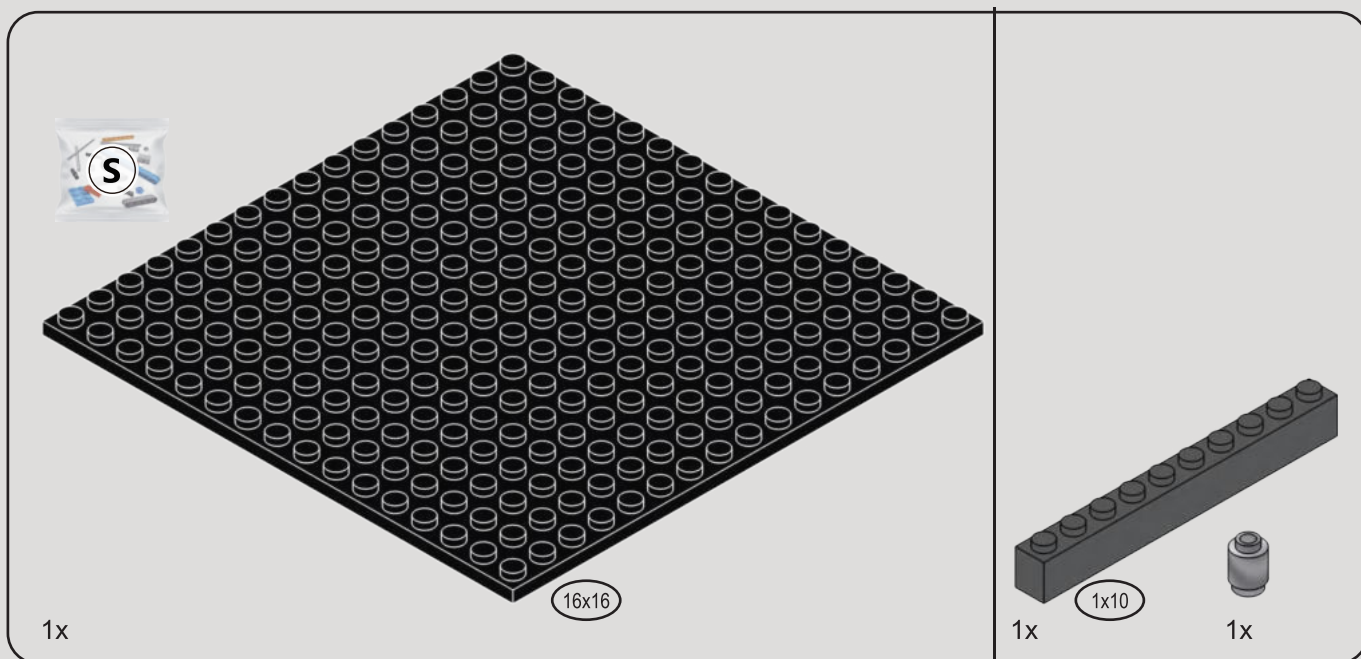

F-pack has two parts: minifigure bricks and special bricks. Assemble minifigure bricks according to instructions on the right. Keep special bricks for later assembly steps.
