ABOUT FUNWHOLE

'FUNWHOLE' is a combination of the words "fun" and "whole", meaning "the whole fun of both day and night".

Founded in 2014, based on the desire to fully express the whole beauty of bricks (in day and night), FUNWHOLE is the world's first lighting bricks manufacturer.

FUNWHOLE is dedicated to the lighting bricks product, with a combination of bricks and lights. FUNWHOLE was birthed out of lights and bricks, allowing lights shine through your bricks and bring your night bricks to life.

As the pioneer to bring the first lighting bricks, FUNWHOLE was created to bring back brightness to the night world, making day and night whole with the lighting fun.

Engaged in building a creative brand, brick by brick, light by light, FUNWHOLE strives to bring fun and joy to millions of people.

FUNWHOLE creates more than bricks but also makes the lights shine through bricks, hoping every building brick lover can enjoy the beauty of lighting!

INSPIRATION

The Middle Ages was a mysterious and fantastical period. This medieval potion shop set is designed for fans of medieval culture and fantasy.

This independent apothecary shop, located on the outskirts of a medieval town, has two floors and provides the necessary potions for townspeople and passers-by. Next door is a small herb garden where the apothecary grows common herbs for easy access when making potions. The herb garden also has a small herb house with a roof, which is used by the apothecary and his apprentice for temporary rest.

The set not only recreates the real medieval scene, but also adds some mysterious and fantastical elements unique to potion shops, allowing players to feel the charm of the Middle Ages in the process of assembly.

WHAT'S INCLUDED

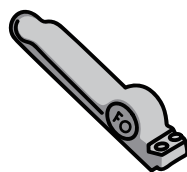

Please check and make sure you get all the items listed below.

Building Bricks

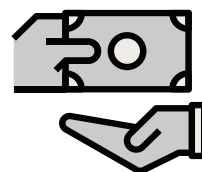

LED Light Kit

Brick Separator

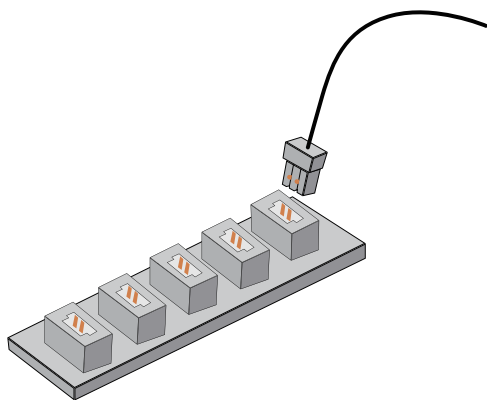

User Manual

Service Card

TROUBLESHOOTING

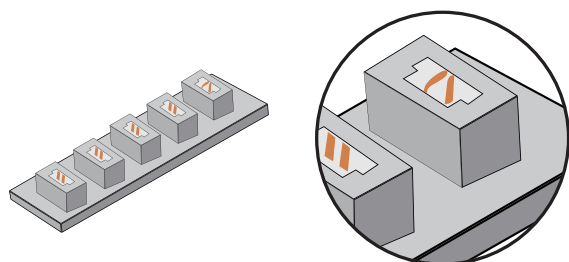

The small size of lighting accessories makes them susceptible to damage during installation, and the following issues are common causes of failure.

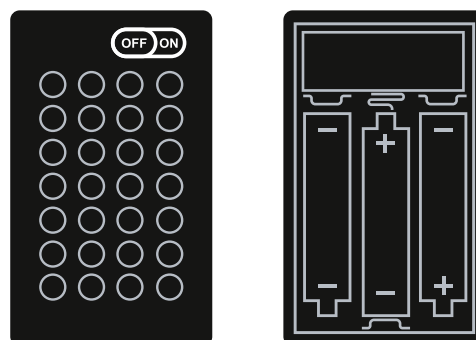

1. Ensure that the connectors are correctly installed as shown in the picture.

2. Check if the wires are disconnected or broken from the solder joints.

3. Check the internal pins of the connector sockets. The internal pins of a properly working connector port should be straight. If the small pins are bent, they may be considered faulty ports.

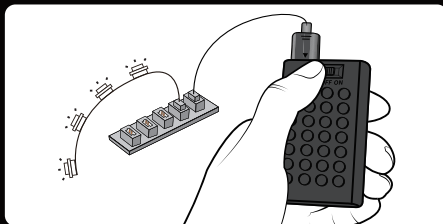

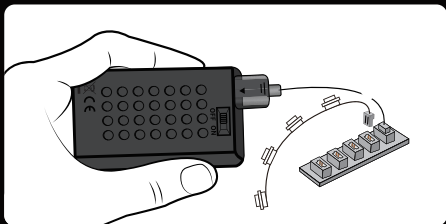

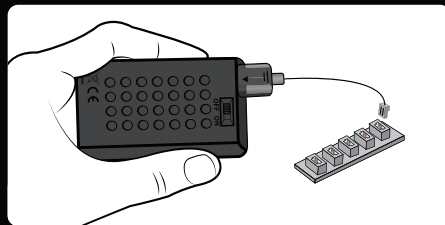

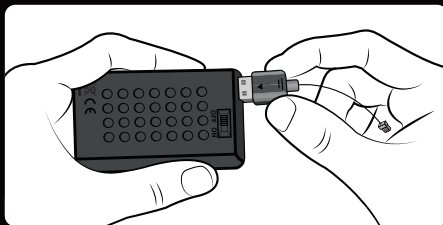

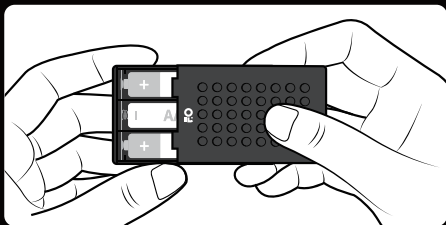

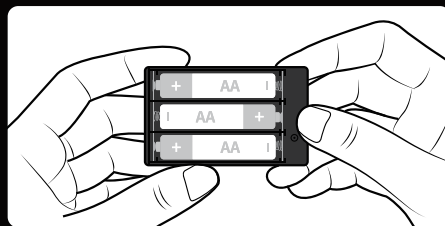

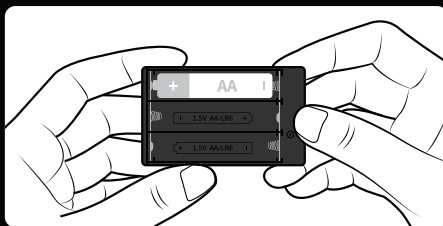

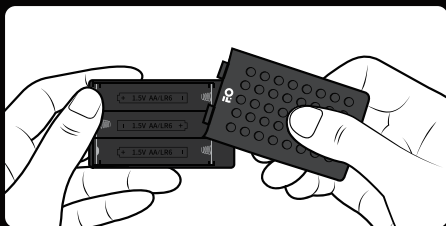

4. Check that the power switch on the battery box is on and that the "+" and "-" poles of the battery are correctly placed (using new batteries) and ensure that the upper and lower connections to the "+" and "-" poles of the power switch are installed correctly.

If you have checked each string of lights according to the guide above and the lights still do not light up, please contact our customer service for assistance.

SAFETY PRECAUTIONS

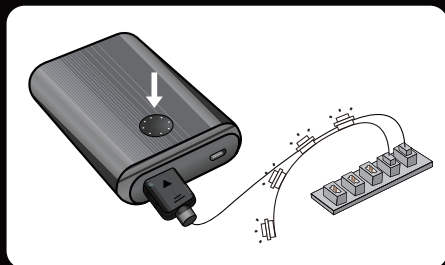

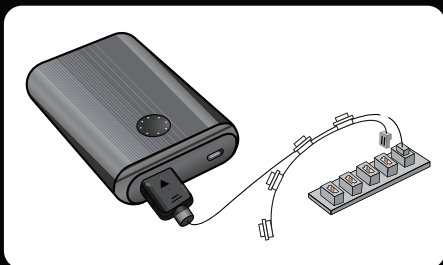

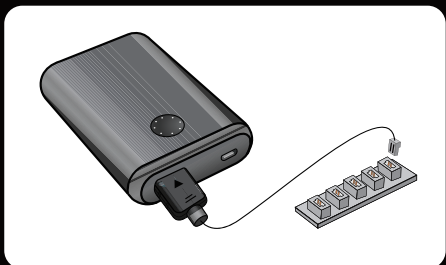

1. Before use, please make sure to check the voltage to avoid damage to the product and potential safety hazards.
2. The lights in the product are not replaceable. If they are damaged or not lighting up, please refer to the troubleshooting section or contact our customer service for assistance.
3. Avoid pulling on the light connection wires as this may cause damage.
4. Do not expose the product to water as it may damage the product.
5. Please read and follow the instructions carefully during building to ensure a good building experience.
6. This product doesn't come with batteries, but the power bank can also power LED light kits.

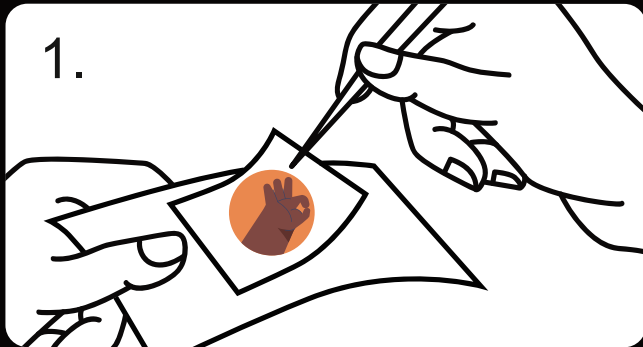

Battery box name: No. 5 block battery box

Battery type: AA*3 (No. 5)

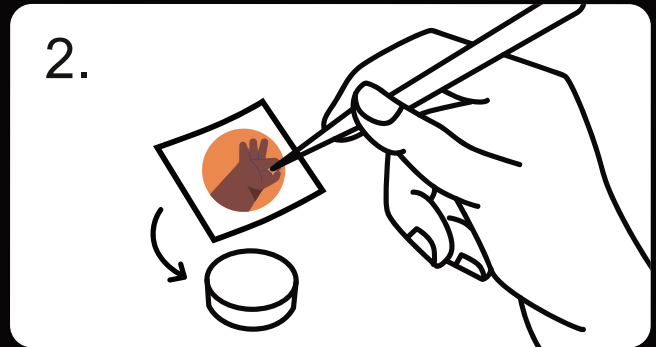

Battery rated voltage: 1.5V

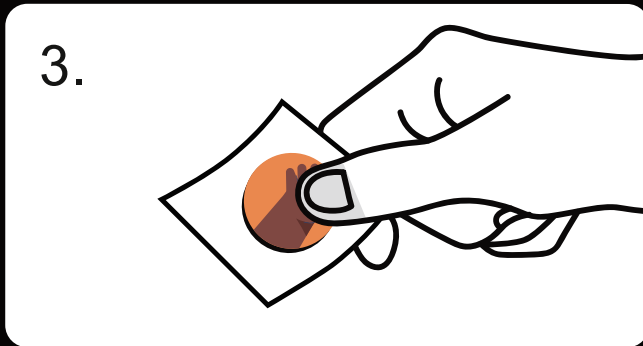

STICKER INSTRUCTION

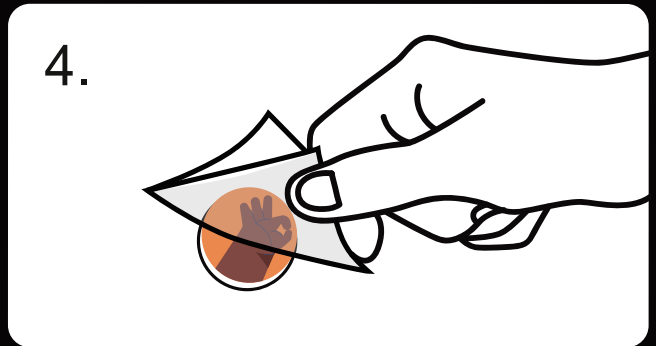

Pinch the transparent part of the sticker and lift it up.

Align the position and stick the brick.

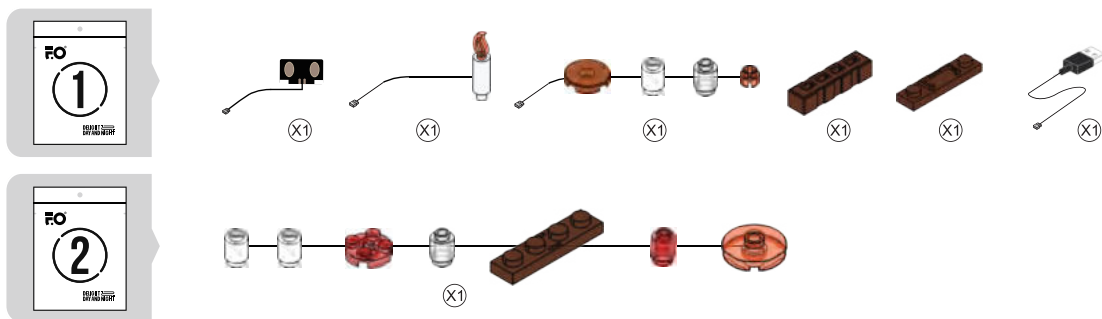

Press the sticker to make them stick tightly together.

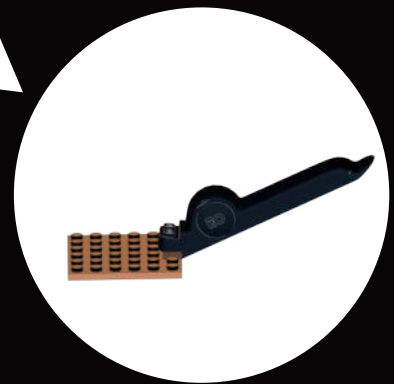

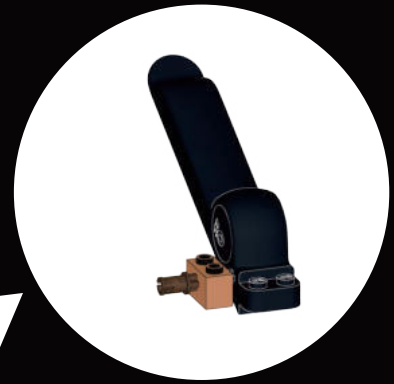

Tear off the transparent film.

LED LIGHT KIT PACKAGE LIST

Please check and make sure you get all the lighting accessories. Contact us if there are any missing components.

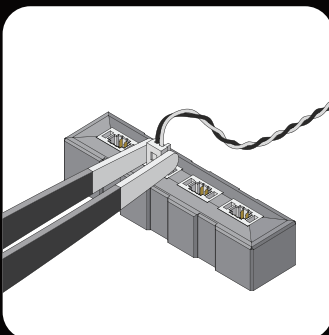

Note: when installing, don't pull it hard, bend it or shake it to avoid damage.

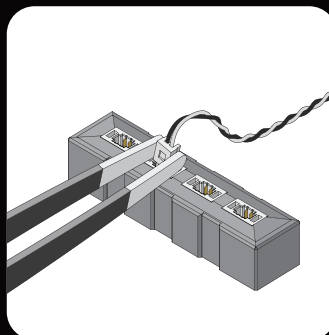

How to Unplug the Connector

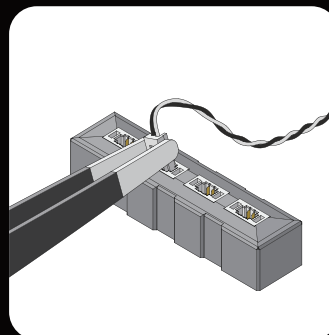

Note that the new connector will be tight. To remove it, gently shake it from side to side until it loosens, then pull it out.

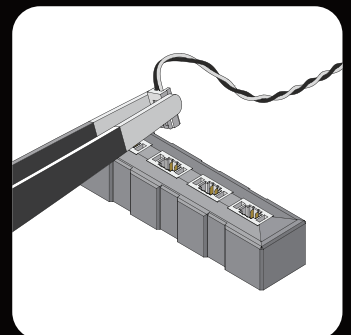

1. Use tweezers to hold the connector on both sides.

2. Gently shake the connector from side to side.

3. When the connector is tight, it will take several shakes to loosen it.

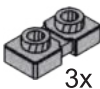

4. Remove the connector.

This isometric view shows the assembly of the top surface of the structure. A dark grey 2x2 brick is being placed on top of a grey 2x2 brick. An orange 1x2 round plate is being placed on top of the dark grey 2x2 brick. The assembly is built on a white 10x10 base plate with brown 1x2 and 1x4 Technic beams. A red line indicates the placement of the dark grey 2x2 brick, and an orange line indicates the placement of the orange 1x2 round plate.

This diagram illustrates the assembly of a long Technic beam (part 292) onto a motor assembly. The beam is primarily brown with green sections at each end. One end of the beam features three white Technic pins. A red line highlights a specific connection point on the beam, which is a small brown pin. This pin is shown being inserted into a corresponding hole in the motor assembly, which is a complex of brown and green parts. The motor assembly includes a large green curved piece and various internal brown components.
