ABOUT FUNWHOLE

'FUNWHOLE' is a combination of the words "fun" and "whole", meaning "the whole fun of both day and night".

Founded in 2014, based on the desire to fully express the whole beauty of bricks (in day and night), FUNWHOLE is the world's first lighting bricks manufacturer.

FUNWHOLE is dedicated to the lighting bricks product, with a combination of bricks and lights. FUNWHOLE was birthed out of lights and bricks, allowing lights shine through your bricks and bring your night bricks to life.

As the pioneer to bring the first lighting bricks, FUNWHOLE was created to bring back brightness to the night world, making day and night whole with the lighting fun.

Engaged in building a creative brand, brick by brick, light by light, FUNWHOLE strives to bring fun and joy to millions of people.

FUNWHOLE creates more than bricks but also makes the lights shine through bricks, hoping every building brick lover can enjoy the beauty of lighting!

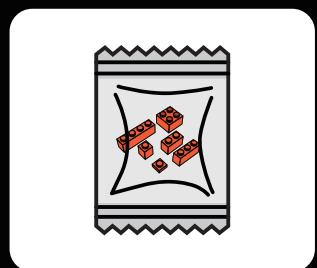

INSPIRATION

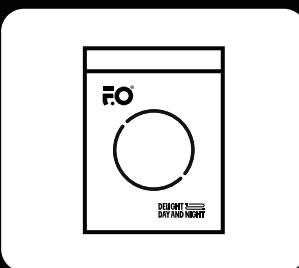

Vacationing is regarded as a highly significant lifestyle and leisure activity in both European and American societies. Opting for nature retreats is among the widely chosen travel destinations by Westerners, constituting an indispensable part of American culture. Cabins nestled in mountainous regions are commonly sought-after accommodations for holidaymakers. In mountain getaways, people typically engage in activities such as hiking, camping, photography, mountain biking, and hot spring soaking. Mountain biking, in particular, accentuates the mountainous essence of the product, seamlessly blending the thrill of sports, exploration, and the allure of nature. Hence, we have developed a unique set of North American mountain retro cabins, seamlessly integrating with the natural environment rather than disconnecting from it, perfectly catering to the emotional needs of our target users.

TROUBLESHOOTING

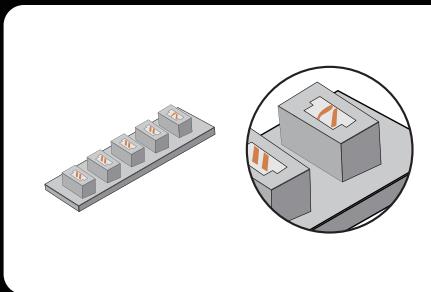

The small size of lighting accessories makes them susceptible to damage during installation, and the following issues are common causes of failure.

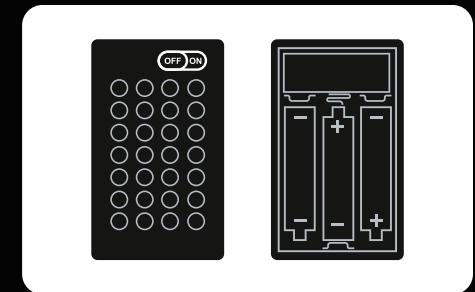

1. Ensure that the connectors are correctly installed as shown in the picture.

2. Check if the wires are disconnected or broken from the solder joints.

3. Check the internal pins of the connector sockets. The internal pins of a properly working connector port should be straight. If the small pins are bent, they may be considered faulty ports.

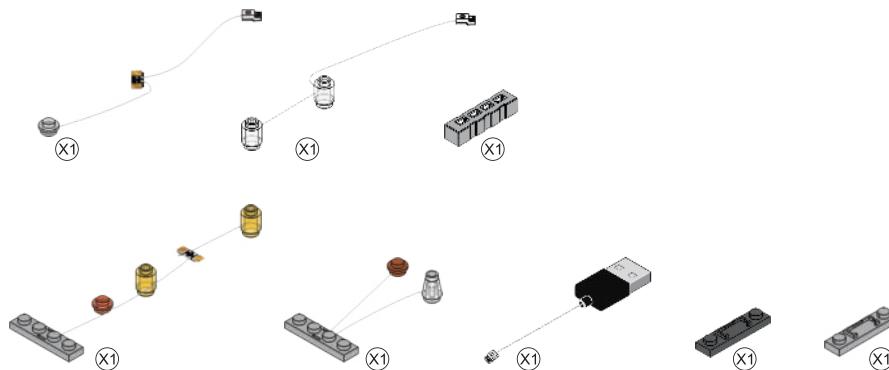

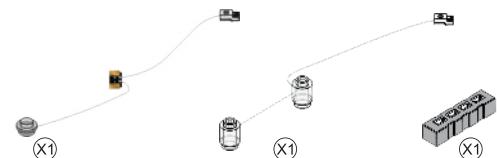

4. Check that the power switch on the battery box is on and that the "+" and "-" poles of the battery are correctly placed (using new batteries) and ensure that the upper and lower connections to the "+" and "-" poles of the power switch are installed correctly.

If you have checked each string of lights according to the guide above and the lights still do not light up, please contact our customer service for assistance.
