ABOUT FUNWHOLE

'FUNWHOLE' is a combination of the words "fun" and "whole", meaning "the whole fun of both day and night".

Founded in 2014, based on the desire to fully express the whole beauty of bricks (in day and night), FUNWHOLE is the world's first lighting bricks manufacturer.

FUNWHOLE is dedicated to the lighting bricks product, with a combination of bricks and lights. FUNWHOLE was birthed out of lights and bricks, allowing lights shine through your bricks and bring your night bricks to life.

As the pioneer to bring the first lighting bricks, FUNWHOLE was created to bring back brightness to the night world, making day and night whole with the lighting fun.

Engaged in building a creative brand, brick by brick, light by light, FUNWHOLE strives to bring fun and joy to millions of people.

FUNWHOLE creates more than bricks but also let the lights shine through bricks, hoping every building brick lover can enjoy the beauty of lighting!

INSPIRATION

When entering from the central station into the Victorian steampunk world, by combining the railway station, which is one of the most steam-powered buildings, with technology and necessary fantasy element, to strike the chord of the fantasy and sci-fi lovers' heart.

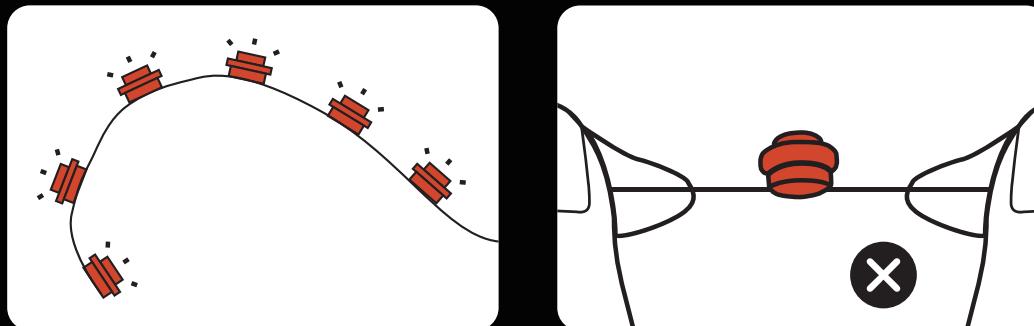

Steam Central Station is the transportation hub for passenger trains and freight trains. Each platform is equipped with an independent steam powering device to ensure the normal operation of the machinery. The No. 1 platform has the highest intensive passenger flow. There are various freight trains coming and leaving on the first floor. While On the second floor, there are suspended monorail trains carrying passengers at set intervals. Passengers set off into the world of steampunk through here.

USING INSTRUCTION

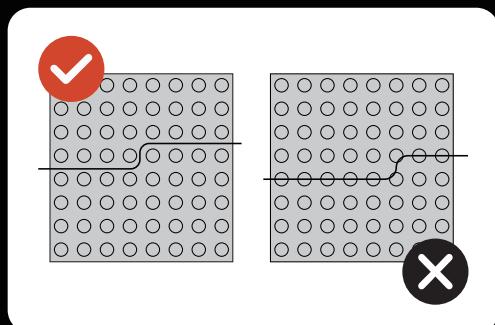

Please read the following carefully before installing the lights.

Caution: Do not mix battery types, brands, rechargeable and non-rechargeable, or old and new batteries.

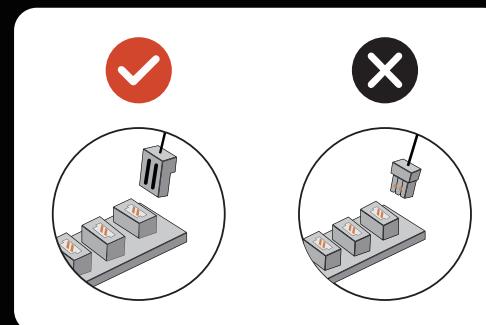

Before installing, connect to the power supply to test if all lights work. If the lights do not work, please refer to the TROUBLESHOOTING or contact us.

LED components are delicate, so please take extra care when installing. No hard pulling, bending or shaking.

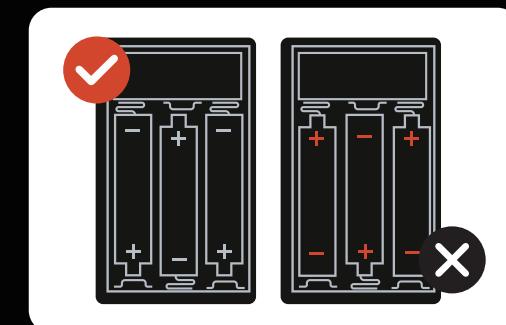

Hide the spare wire under the bricks: when installing, please make sure that the wire is laid between two studs of the bricks, but not pressed by the bricks directly.

Connectors can be inserted into ports of the expansion boards in only one way. Make sure the plug faces the right way before connecting.

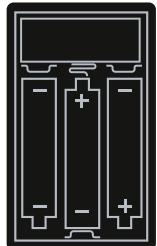

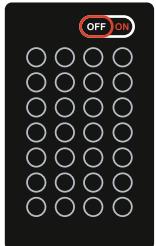

Tips: if plug doesn't fit easily into a port, don't force it

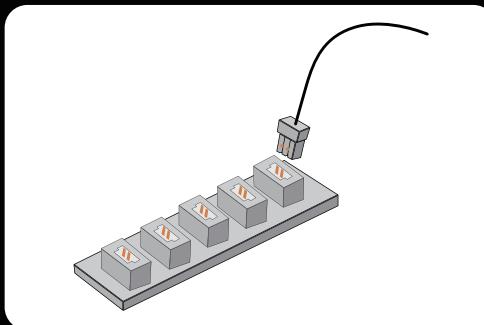

If you use a battery box to power up the lights, you'll need to prepare 3AA batteries which are not included in this package.

For better display, new batteries are recommended. Please remove the batteries if not in use for a long period.

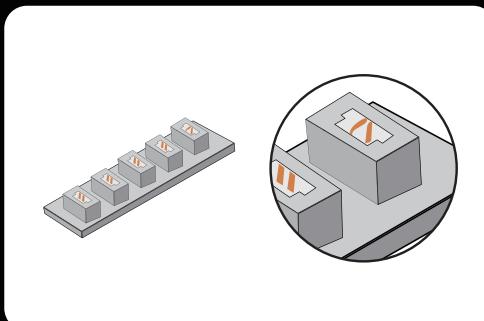

TROUBLESHOOTING

1. Check if the battery box is turned on; check whether the battery power is sufficient; and check whether the battery is installed properly.

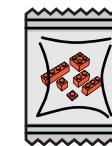

2. Make sure the connector is inserted correctly, not reversely.

3. Check whether the wires fall off or break off.

4. Check the expansion boards. Check if the pins inside in ports are bent, since the standard working pins should be straight

WHAT'S INCLUDED

Building Bricks

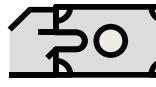

LED Light Kit

Brick Separator

User Manual

Service Card

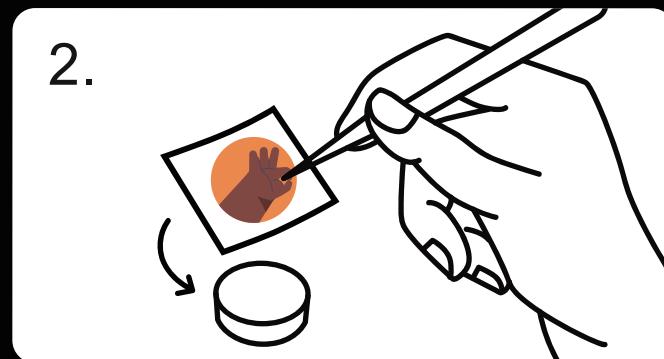

Please check and make sure you have all the items listed below.

STICKER INSTRUCTION

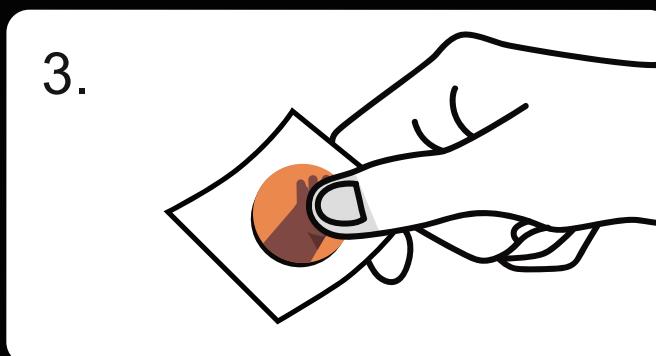

1.

Pick up the transparent edge of the sticker with tweezers.

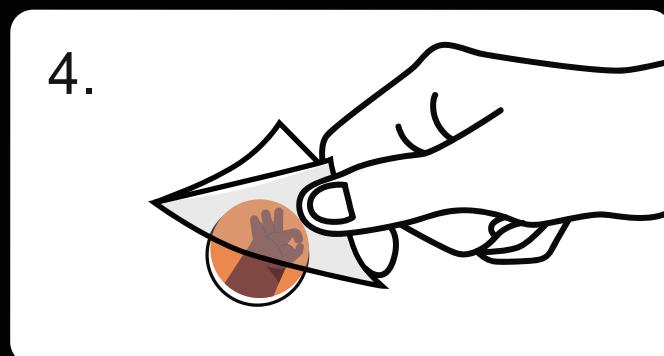

2.

Align the position and stick the brick.

3.

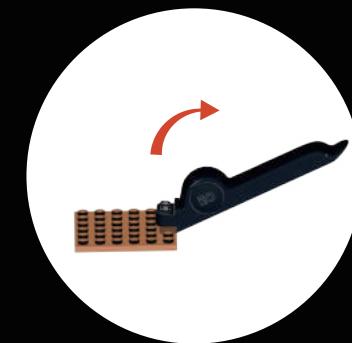

Press the sticker to make them stick tightly together.

4.

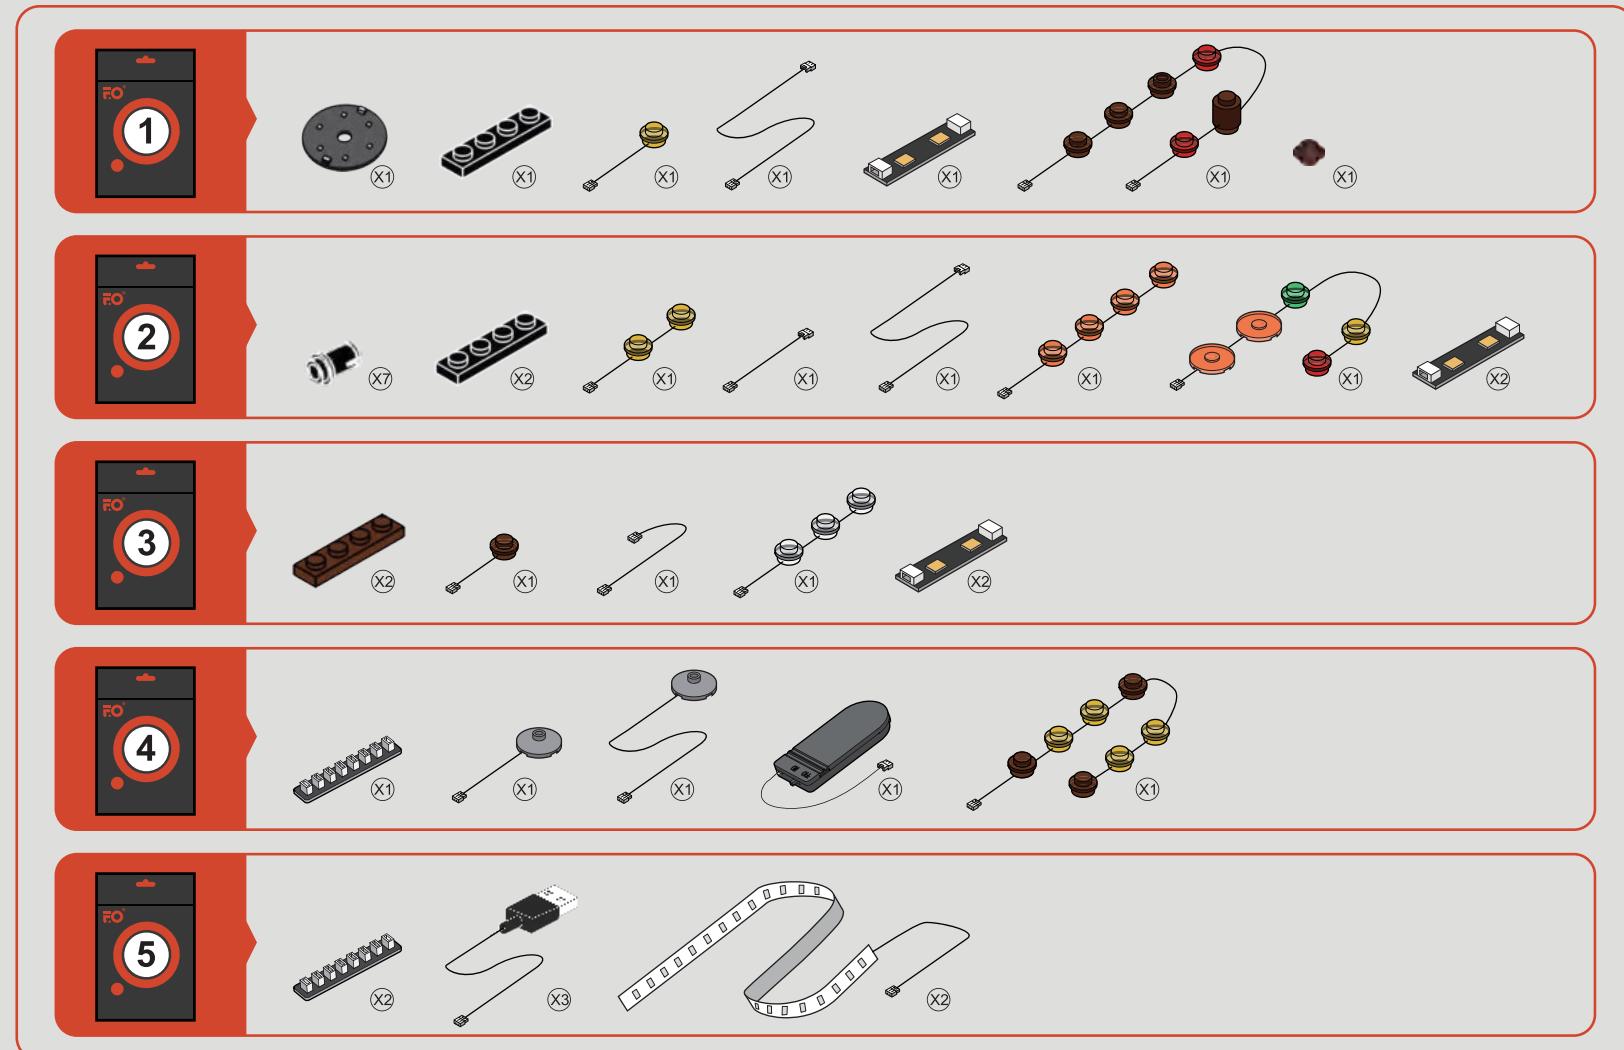

Tear off the transparent film.

USAGE OF BRICK
SEPARATOR

LED LIGHT KIT PACKAGE LIST

Please check and make sure you get all the lighting accessories. Contact us if there are any missing components.

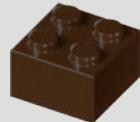

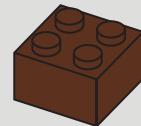

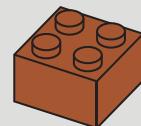

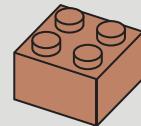

Note: when installing, don't pull it hard, bend it or shake it to avoid damage. Voltage must be less than 5v. Not for children under eight.
