THE LIGHTHOUSE OF ALEXANDRIA

The Lighthouse of Alexandria, also known as Pharos of Alexandria, was built in 280-247 BC. It was the first lighthouse in the world and one of the seven wonders of the ancient world.

As a rare ancient wonder with practical application value, the Lighthouse of Alexandria has been guiding sailors to port in the dark for 1500 years. This incomparable lighthouse shines in the daytime and is bright at night. It conscientiously helps ships navigate when entering the port and brings a sense of safety to the helmsmen.

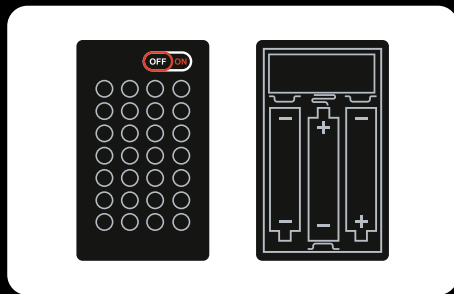

Why was the Lighthouse of Alexandria destroyed?

The Lighthouse of Alexandria became a ruin after it was severely damaged in three earthquakes between 956 AD and 1323 AD. Its remains were used to build the Citadel of Qaitbay on the site.

Due to its long history, the historical records of the Lighthouse of Alexandria in each period are slightly different. This FO set is an interpretation of the glorious period of the Lighthouse of Alexandria, relighting this ancient world miracle together.

TROUBLESHOOTING

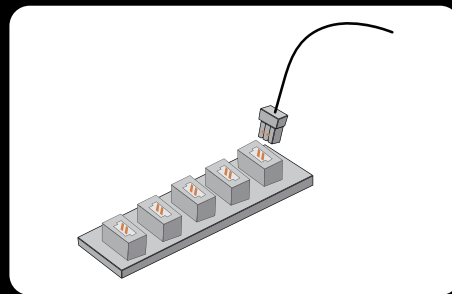

Due to the small size of the lighting accessories, they are easily damaged by improper installation and the following are common causes of failures.

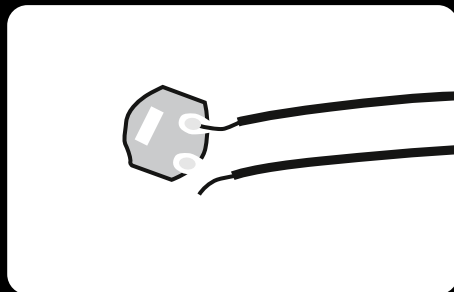

1. Please check that the power switch on the battery box is on and that the "+" and "-" poles of the battery are correctly placed
